DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS????

Dear companions,

I would to remind you that the world still agonizes and suffers for the actions of humanity, but I do not tell you that in order martyrize your consciences and make them suffer an ill that you do not know; I tell you these things because, with all that you receive every day, you must be a little more consistent with that in your actions, in your thoughts, in your feelings and in your aspirations.

Many frequently forget about what happens in the world and let their consciences get lost in the daily distractions and in the little inner problems, which become large, such is the attention that you place on them.

The beings, in their majority, do not truly recognize that we are in apocalyptic times. Even those who consider themselves more conscious will need a great impact in their consciences in order to know that, in truth, the end of times has come for the current humanity.

God expects that those who believe in His Messengers and who follow Their instructions be more vigilante than ever and seek, over all things, to manifest in themselves the Purpose of God, in which they trust.

I have always told you that you needed to be brave, but many take these words with a merely emotional enthusiasm and believe that will be brave when they are before chaos that spreads itself throughout the world with violence. But what I come to show you is that this same chaos dwells within the creatures of the world in their due proportions and must be purified and elevated by the transformation of the consciousness.

It will do little that My Chaste Heart may descend every day to the world and deposit, in the beings, a part of the codes that I reached as Joseph of Nazareth, if your hearts do not do anything or almost anything to develop these codes within yourselves.

I do not want to discourage you or to disregard your efforts, but you must recognize that your distraction is very big and that you often still allow yourselves to live the old human patterns, even with all the knowledge that you have of the planetary situation.

Today My paternal Heart talks to those who aspire to live the transformation and to those who will not feel hurt with what I tell you, but rather impelled to maturing, because I come in this definitive time to deliver the best that there is in God to those who will move forward.

You will no longer have thirty years more to follow with a slow and precarious change, because what you build inside of you today is what will result in the years that will come and it is what will dictate the steps that you will take as consciences in the future of the planet.

I assure you that nothing will stay as it is and that, with those who accept to move forward, the Plan of God will be fulfilled.

I love you and I warn you. I guide and I always protect you, especially from yourselves.

Your beloved Father and Instructor,

The Most Chaste Saint Joseph
