DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF WEED, CALIFORNIA, UNITED STATES, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN, ON THE OCCASION OF THE VIGIL OF PRAYER FOR HOLY NIGHT

The Shooting Star of Bethlehem

In those days, when the inner preparation to receive the Baby Jesus into My arms was being anticipated, the sacred star of Bethlehem, the symbol of the Great Brotherhood of Heaven, revealed Itself to the three kings that, because of having pure hearts, could come to our gathering in the humble stable of Bethlehem.

The great star of Bethlehem shone during several days and was sent by God to accompany and, at the same time, to announce the arrival of the Son of God in the world.

It was in this way that this sacred star, that only appeared during those days, began to reveal, at first in dreams and in signs, to some consciousnesses that by the Will of God, should become aware of the arrival of the Messiah.

In those days previous to the arrival of Jesus, Saint Joseph, although still being in Nazareth, heard from the angels of Heaven the announcement and the exact time in which the Most Holy Spouse should be in Bethlehem in order to give birth to the Divine Son.

It was in this way that the sacred star of Bethlehem also showed the place and the path which the Sacred Family was to travel.

In those days in which the whole Universe gathered to accompany and at the same time to witness the birth of Jesus, the star of Bethlehem, from Nazareth, had the simplest consciousness among the simple ones come to the manger, souls that were called by the Most High to lovingly accompany the arrival of the Messiah.

The star of Bethlehem was that powerful bright star that in that time worked upon the spiritual and the material plane of the planetary consciousness, so that it could receive the extremely potent love-wisdom, the Ray that would change the events overnight.

This sacred star of Bethlehem has marked a before and an after. It was radiating certain universal currents that, before the coming of Christ, physically modified all the human mistakes that made of the race a civilization compromised by evil.

During the nine months of the gestation of Jesus, the Sacred Family was prepared by the angels themselves, so that this important event of the coming of Jesus could be experienced in all planes of consciousness, in order that this divine event could be recorded on the planet and in the solar system.

The star of Bethlehem was the guardian of the birth of Christ, and at the same time, it was the cosmic bridge that united humanity's time with celestial time.

It was in this way that the Holy Mother of God, moments before the birth of Jesus and after having been in silence during nine days, received the divine impulse of all these revelations that the sacred star was fulfilling.

The Most Holy Mary knew that the birth of the Son of God would, in that moment, bring to the world the liberation of age-old errors, and at the same time, the redeeming light that should, no matter what, shine on this planet.

The star of Bethlehem was that cosmic beacon that drew a spiritual awakening of consciousness to the human race. That sacred star was what generated the maturity of many souls for future times; it was the great star of Bethlehem that announced in all the inner worlds the arrival of the powerful Christic energy of redemption and of love.

In those days in which the planet was prepared for the coming of Jesus, and was also purged of the codes of perdition of the world, the holy angels, the same ones that were at the manger of Bethlehem during the divine birth of Christ, also supported the awakening of inner love in humanity, especially in the simplest hearts. If that love gestated by the holy angels had not been born in humanity, the coming of Jesus would have necessitated other spiritual requirements.

In the star of Bethlehem was reflected the presence of the Love of the Most High, as well as the Grace that was being granted through the birth of Christ.

Bethlehem was the scene chosen by the Father so that this event, guided by the Archangels, could be carried out under the divine perfection of love and of ceremony.

The coming of the Messiah and the Great Liberator of the peoples was beautifully guided by the angels, who at the same time, worked on the unconscious of humanity, in order to be able to redeem it as from this blessed moment.

The great star of Bethlehem brought to the world the opportunity of elevating and of purifying the consciousness through elevated and not rudimentary thought by means of determination.

This precious star of Bethlehem showed itself to the world in that time to gradually disintegrate the patterns of self-destruction and of a commitment to all that is mundane in the human race.

The star of Bethlehem brought the awareness that we are spirits in service to a Greater Purpose, capable of giving us the impulse to a fulfillment of the Divine Work.

It is that very same star of Bethlehem that in that time tried to reflect and shine in the consciousness of human beings, so that they might perceive within themselves that a unique opportunity was being given through the birth of Christ.

Because of this, children, after all these events that were planetary and universal, once again humanity is facing the test of Christmas, of being able to go through this sacred date remembering and placing their attention on all that the coming of Christ to the Earth meant.

The Eternal Father hopes to see Christ be born inside of you, so that a love greater than the one you experience today may awaken in the consciousness of humanity, which must fulfill and collaborate with this last part of the Divine Plan of Love.

I would wish My children to not be indifferent, but rather that they take advantage of this Christmas time to reaffirm their vows before the Celestial Hierarchy, because that confirmation will open the doors of consciousness to other souls in the world.

On this Christmas Eve, when the Sacred Family is in adoration at the foot of the manger of Bethlehem, may all My children prostrate themselves to revere within, the birth of the Child-King in their hearts.

At least do it as an offering and in devotion on behalf of those who today will become lost in banal celebrations.

For your consciousness and union with this moment, dear children, I thank you for responding to My call.

Who, under the sacred star of Bethlehem, blesses you,

Your Mother Mary, Rose of Peace
