**DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN**

### **The University of Higher Love**

Dear children:

Today I come to you with the maternal intention of your souls attending, in these times, the University of Higher Love.

A School and College that will place you in the precise moment and in the true need that must be provided by all serving souls.

The University of Love is a spiritual place within the Celestial Universe, where the angels, the blessed, and souls that have ascended to the Heavens through merits, learn to develop within themselves the Gifts of God, mainly the Gift of Love.

Without this Gift of Love in the life of the beings of the surface and in the souls of Heaven, it is ultimately not possible to enter the Christic School.

The University of Higher Love offers the opportunity of giving oneself to the Plan of God and to fulfill it by the means of actions of charity, of service, and of the permanent giving of self.

If these three foundations are not learned by the students, it is not possible to acquire a spirit of greater knowledge of the essential life, a profound discernment at the moment of making decisions, and a consciousness of wisdom during all phases of life.

The University of Higher Love exists in order to be able to dispel from the unconscious and subconscious world what we believe of ourselves, or of how important our presence within the Plan would be.

It is true, God loves us, but He needs that in this life, as in the Higher Universes, we live a principle of humility and of surrender that until now humanity has not achieved.

The University of Love exists in order that we may know, from the beginning, that we must continue transforming and transcending our spirits and consciousness, so that someday, in the evolutionary chain, we may be true representatives of the Plan of God in some part of the Universe.

The presence of this University of the Love of God also reminds us that we must not rest or settle ourselves in what we feel, think, or do within the practical or spiritual task that we may be carrying out, nor believe that we ourselves offer everything that is enough or too much in our understanding.

The Christic School comes after the University of Higher Love. While we are incarnated on this planet, we will be getting in touch with a first basic part of the extension of the University of Higher Love on this surface; this means, My children, that there is still much to go through and to learn, that the static or sedentary life is not the purpose that Christ seeks for the Christs of the New Time.

The Project of the Master for this surface is very broad and still unknown to humanity.

All the plans of service, of charity, or of consecration that are experienced on this planet and in these times are elementary, very elementary, for souls.

That is why the true attitude of the server, of the collaborator, or of the consecrated to Christ, must be the response of service and an extremely unconditional surrender, without rules, conditions, or clauses on the part of the consciousness. That will show that the being is in the University of Higher Love and has understood which is the true area of work for the Spiritual Hierarchy.

When incarnated souls pretend to be distracted, omitting or not accepting to take on any mission or task that the Universe presents for their lives, they will be responding that they have not accepted entering the University of Higher Love.

Thus, it is important to know that no one can hide from God, nor lie to themselves in these times. The greater responsibilities, as well as the lesser ones, will be the keynote of this period. Responsibilities that will grant an expansion of the consciousness, according to the conscious acceptance or rejection of each being to Divine Will; middle paths will no longer exist so that we can hesitate or make our mission into a petty one.

The Universe calls on you to define, in this time and under these circumstances, which School you will choose to experience: that of the planet, which is lagging, slow, and heavy, or that of the Universe, which is dynamic, infinite, and constant.

The decision is in your hands.

I thank you for responding to My call.

Who blesses and makes you aware,

Your Mother Mary, Rose of Peace
