DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS

In order to enter the Heart of God and to be in His dimension of Peace in these times, you will have to fight against yourselves, against the human condition that seems to expand and grow within you, so that, surrendered to Christ, you may be more meek and humble.

When God called Me to His encounter to be part of His Plan of Redemption for the Earth, He began by breaking, inside of Me, that which was most rooted in the humanity of My time. He made Me submissive to the virginal purity of My Holy Wife, Whom I learned to love, to obey and to trust. And He made Me submissive to My little Son, born from the Holy Spirit, a part of God in a little child.

With this, God would not only break a retrograde condition within Me but would also transform laws of a humanity that, in its time, did not know how to recognize the best of the other, but only tried to submit the neighbor and stand out. Especially a man inside of his family, even if there was love in his heart, the false power was bigger.

The Creator taught Me that without meekness, peace is not reached. It is impossible to enter His Kingdom without surrendering to humility; before learning to recognize His Presence in those who, sent by His Heart, come to the world to renew His Love.

Each child of God has been sent to Earth to renew His Love, not only in this world but in all universes. While the consciousness does not open itself to this truth and prefers to remain in the illusion of its superiority and arrogance towards the others, it will believe that it is on the path of Redemption, but, within it, neither Grace nor Mercy of God will find a place.

If you want to communicate with the Father, children, you have the path open for this. You will be able to be eternally in the dimensions of His Kingdom, even being in this life, but for this you will have to surrender yourselves, humiliate yourselves and learn not only to love the neighbor, but also to recognize them as a treasure of God in the world, a part of His Heart.

You have My blessing for this.

Your Father and Friend,

The Most Chaste Saint Joseph
