**APPARITION OF THE VIRGIN MARY AT THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS**

It is through the love of My children that the Holy Mother of God and your Mother can work with humanity and the planet, through the precious tools that exist in the whole of the vast Cosmos, tools that generated the Principles of Creation and that permitted the generation of life in the origin of origins.

It is these same tools of light of the nonmaterial and spiritual Universe that in this time act in the Universe and on this planet with the aim to not only uplift the human consciousness, but also to redeem it so as to take it on the path of good and light.

You are before the Mystery of the Origins, of the first thing that God thought of before the creation of the universes. You are before your existence, your creation. You are before the Mystery from which you emerged as essences.

Today you are before one of the truths of God and My angels accompany this sacred movement which, like a spiral of light, descends its principles from the Source for the human consciousness which, in these defining times, opens to reveal the mysteries and thus become able to know them, in order to become sacred and united, in perfect alliance with God.

In the nonmaterial Source, there are many manifestations of life. In the Universe, not only that which lives and vibrates is called life, but also everything that is moved by nonmaterial energy, as a powerful flow and energy that feeds back the spaces and all of the planes of consciousness, so that souls and all the beings of the Universe may be in contact with God.

In this part of the local Universe, where your planet constitutes a system of life, only one percent of this system of communication exists.

So you will be able to understand, My children, how vast the Creation of God is in this Universe. Because as you already know and learned, through the instruction received, the Universe not only ends in the physical, but it is also mental, spiritual and supra-spiritual, something that the human consciousness has not achieved yet, due to the condition of its molecular and cellular density and to the chaos of these times.

But the Father thought of something different for this humanity and this planet, even before the return of His Beloved Son, that His most sacred treasures of Creation, the most ancient knowledge of this material and spiritual Universe should be within reach of all human beings, so that they may finally represent the Plan of God on Earth and the veils of cosmic life may fall from their faces so that the truth that brought them here and the Purpose that conceived them for this moment may be shown.

This is why, through My Immaculate Heart I not only profess simple words for souls, so that everyone may understand Me. But it is time, My children, that your consciousnesses take one more step toward the Universe so that your vibrations may be elevated more, given the planetary need

and the chaos of the end times.

Just as the people of Israel were, this generation of the end of times, this humanity transitioning from an old time to a new time, must be deserving of the celestial treasures so that it may become the steward of the relics of God and of all His knowledge emitted since before creation.

Now, My children, the Mystery has now ceased to be a mystery. It is time for you to be able to ascend through the awakening and the sacred knowledge written in the eternal, in the sublime spheres of Creation, where the Divine Purpose pulsates and vibrates for all of Creation and for all life.

Today you are before one of the Wills of God and I know that your hearts cannot embrace all of this, even less your minds because of the limitation they have. But your spirits, that know universal and cosmic Life, that feel in the center of their breast the Greater Life and the confraternity that has brought them here to learn about redemption and forgiveness, your spirits are indeed open, because it will be your spirits that will make you understand the Mysteries of God, and you will thus become familiar, in an evolutionary way, with the divine Knowledge of the Supreme Source.

There are still many keys that we must deliver so that new doors may be opened. It will depend on the receptivity of hearts to divine knowledge for this to happen. This will generate more opportunities. The divine science will be close to your lives.

You will learn to interrelate with the Universes and with other systems of Creation that are beyond this local Universe.

It is time to understand, My children, that we are not alone. It is no longer a theory of a few wise or scientific men.

Divine and universal reality wants to descend so that your souls may find the commitment that brought them here and become instruments of God, so that He may work in the end of these times, fully activating the plan of rescue in this humanity.

Nothing of what I tell you is strange. However only some hearts, in this hour and at this time, are able to understand all of this universal system, since the majority is awakening to something that they have long forgotten and that comes from the stars, from all the suns, from all the stars that encircle the Universe, generating universal Life and the descent of sublime Life in all the systems of this Universe and of others.

The Creation of God is vast, and much knowledge can draw close to the souls that want to reconnect with universal Life so that ignorance may be dispelled and the tonic of Truth may enter the consciousness, which will make you responsible and correspondent with the Divine Plan of the Father.

Thus, it is now time to take steps in spiritual evolution. It is time for you to no longer remain restricted to what occurred on the planet or with what is told in the history books that were written. Many more truths exist in the Universe that are not known up until today.

Only by the decision of the Eternal Father can this reality be part of your lives, be within your consciousnesses and form you in the Sacred Knowledge of God. That same knowledge, which once descended over the patriarchs and the prophets, was what allowed the originality of the race to be

preserved, beyond its errors and acts committed, and also what allowed the preparation for the birth of Jesus.

The human being from the Earth has many possibilities in the system of life. However, the plans of My adversary reached the entire human consciousness so that it would not know its potential and virtues, or the possibility of being able to communicate with God in a fluid and permanent way, like no other place in the Universe.

For this reason, the human being is something unpredictable. They may be in good or in evil.

But it is time, My children, that through the Sacred Knowledge which comes from the Universe of God, you may learn in the end of these times to defeat duality so that your souls may grow in love and in truth, in service and in humility for those who are more ignorant and foolish, for all those who do not want to see the Truth of the Universe that is written since ancient times in the Mirrors of Creation, divine and cosmic information that is refracted from time to time to other systems of life beyond the Earth.

Beyond the Earth, the material amongst distance planets is something alternate for the consciousness of humanity.

There are many points in the Universe from which you can reach other spaces in a matter of seconds or minutes. It is just that humanity is in an alternate time.

It will be the knowledge of the Universe that will allow you to access the truth of real time or present time, and will allow you to understand everything that exists within the Universe of God and which is much more sacred than what has been sacred on this planet.

All beings come from different Sources, from distant origins, from undeletable histories, from a lived experience that remains engraved in the consciousness, that is still not aware of this reality.

But those veils will also fall someday and you will be able to recognize your actions and errors. And you will be able to amend them in the Love of Christ, especially through the strength of your faith in the sacred Plan of the Creator.

Your Guardian angels keep the history of your existence and deeply know your inner and spiritual reality; what you were, what you are now and what you will become someday, after transcending duality, death and illusion.

But in order to be able to live this as many other beings have lived it at some time, humility, resignation, obedience and a great deal of willingness are needed to concretize the purpose that brought you here, beyond what you think, what you feel or what you live.

The true essence that brought you here is not in material life. Material life and its vehicles are instruments to live that experience, to learn something that you stopped learning or that you never learned, for different circumstances or reasons.

Material life can reflect spiritual life, but it will never be the same as supreme life. God created each plane of consciousness, thinking of each detail and meaning of each movement, each action and each purpose.

You, as humanity and as a planet, as an existence within a universal system, within an infinite creation of a vast universe, you are immersed within this Purpose, which must be designed and accomplished in these coming times, so that an unknown Will may be fulfilled, so similar to the Will that God once had to bring His Son to Earth.

With this spiritual comparison, My children, you are faced with a great divine responsibility and before the Portal of a great opportunity of carrying out the Greater Will on Earth.

Therefore, My children, as time, months and years go by, each time new Children of Mary are consecrated, they take on greater responsibilities before Creation, knowing that it is not only carrying the mantle of the Virgin Mary on their bodies; it is something much greater, that comes from the Source and that gives them the grace of living their consecration.

Those who will be consecrated today can approach the stage.

You will make your vows before the Mother of God of learning to submerge in Divine Life, so that your consciousness may be divinized and thus, one day, you may fulfill the Greater Will that brought you here.

I have said a lot more than expected tonight, because God observes and contemplates the movement of your inner beings in order to measure how far it is possible to deepen in the revelations of His Sacred Knowledge.

Today, may those who will consecrate themselves, and those who have already consecrated, be permeated and filled by the sublime spheres so that, essentially as souls and spirits, you may unite with the Greater Source through the love and the unity that brought you to the Earth to fulfill a Sacred Purpose.

Continue to pray every day so that the Mother of God and your Mother may be able to continue pronouncing and revealing the Mysteries of God and thus, more each day, human ignorance may be dissolved from humanity.

Today, by means of the Mirrors of the Universe, through My Maternal Heart, as Empress of the Universe and of the Earth, as the Greater Lady of the Universe and Mother of the World, I radiate My attributes to you so that, as little seeds of light, they may be sown in your hearts and essences, so that when Christ returns for the second time to the Earth, He may find in you the talents and virtues that He will need to be able to redo and reconfigure humanity.

Listening to the Hymn of your consecration, I raise your aspirations to the Highest, and in His Heart, the Father receives your pleas, so that your souls may be contemplated by His Mercy at this moment of consecration and of union with the powerful Light of the Celestial Universe.

For this reason, children, on this night, before the Knowledge of God that has been revealed, receive My warmest and sweetest love of Mother so that in your hearts you may feel the promising warmth of My Love and the coming of hope. Amen.

*Friar Elías del Sagrado Corazón de Jesús:*

*We all stand, at the request of Mary. And together with Her, let us give thanks for the immensity of Her Love and Her Grace, because we know that we are not deserving of so much knowledge. And*

*through this knowledge, through the Most Holy Mary, each one of us can discover each day more of the infinite Love of God for each one of His children.*

*At the request of the Divine Mother, we will pray for this consecration and for those who will re-consecrate today, renewing the vows with the commitment to live the Plan of God on Earth and to materialize it in these times, so that the salvation of humanity may be accomplished.*

*Let us pray the Our Father in Portuguese, together with Our Lady.*

*Pai Nosso...*

With the power that comes from the Source of God, in the name of the Most Holy Trinity, I bless you and I consecrate you in the name of the Father, the Son, and the Holy Spirit.

You may sing the Hymn of your consecration.

I thank you for responding to My call and for being open to hear the revelations of the Lord.

Amen.
