DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN PUERTO VIEJO LIMA, PERÚ, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

Dear children,

The physical-spiritual contamination of the planet compromises the inner evolution of the human race because it creates disharmony in Creation and, at the same time, leaves the correct rhythm of the universal Laws.

In the great oceans, for example, the contamination not only shows a lack of spiritual consciousness, but also a high level of indifference for the Kingdoms of Nature.

All the known and unknown waste that is thrown into the great seas of the world, besides drawing toward humanity a series of spiritual and physical diseases, which within this twenty-first century have been considered inexplicable, there is also generated the manifestation of certain spiritual forces, created by the contamination and by the chemical experiments made in the oceans.

This situation has an effect not taken into consideration by the human being and triggers the colonization of certain regions of the planet and of the human race, compromising the process of evolution.

At this time, prayer will not be sufficient to diminish the effects caused by the modern human being to the Kingdoms of Nature, but rather it is urgent to be aware of and to have an interest in protecting and supporting the Plan of evolution of the human race.

Great angelic Hierarchies work in these affected regions to generate an effect of transmutation capable of compensating for all the imbalances caused.

It is time to wake up!

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
