DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

When men assault life and imbalance the Laws, the Laws themselves, sooner or later, return as a consequence of human actions.

After so many centuries of outrages and of indifference towards life on Earth, now the time has come when the Laws of Equilibrium and of Return begin to show the consequences of human actions.

The same seriousness of the actions caused by men in the consciousness of the planet will return in the expressions of the imbalance of Nature and in the disasters caused by the own works of humanity.

Throughout the four corners of the Earth, the return of the Laws will be seen and there will be nothing able to stop them because this was the learning humanity chose when building its life on Earth.

Those who are consistent with the Divine Laws, that comply with them, obey them and love them, will be worthy of gathering the fruits of a higher life, those fruits that, perhaps, will not be known in this world but in others.

The only thing the Creator asks of you is that you may work untiringly to balance the imbalances of this world and that you may not continue to feeding the currents of chaos, anger, discord, but be aware that you must attract to the world the evolutionary vibrations that will make it worthy of a new life.

Before the negative consequences of human actions, it is time to bring balance with service, prayer, fraternity, hope and, above all, love.

Meditate upon what I tell you and make your lives the weight that positively balances the scales of the Justice of God for this world.

Your Father and Friend,

The Most Chaste Saint Joseph
