DAILY MESSAGE OF THE GLORIFIED CHRIST JESUS, TRANSMITTED IN THE CITY OF BUENOS AIRES, ARGENTINA, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Argentina is a homeland raised on the values of work and effort because Argentina is characterized by care and dedication, which its people put into everything they do.

The impulse that Argentina receives through the will always causes it to want to overcome itself to achieve the well-being of the family as well as its society.

This virtue of constant and true work is present in the humblest and simplest souls of Argentina. It is for this reason that Argentines still have not discovered that within themselves is the potential to awaken and take up their spiritual life and their inner contact with what is higher and divine.

This is one of the reasons for which your Redeemer returned to Argentina, so that the Argentines themselves may perceive that they are faced with the opportunity of reacquiring, as in other times, their contact with what is divine and, from that level of consciousness, draw toward the nation that which it needs to experience in this cycle, rather than that which human beings generate within it.

Argentina is still to discover that it can be a spiritually rich nation, just as it is materially rich, and that, for the Argentine people, the Universe intended that they would have the possibility of developing as a civilization through everything that they have and that someday must be equitably distributed and shared.

This will make of Argentina an evolved people.

I thank you for keeping My Words in your heart!

Who blesses you,

Your Master and Lord, Christ Jesus
