WEEKLY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE Monastery of the Confraternity of the Lord, Guatavita, Cundinamarca, Colombia, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Dear children,

After one hundred and two years since the miracle of the sun, the material approach of the Sacred Feminine Consciousness today allows for the rays of the Mother and Empress of the world to embrace you completely, so that all your inner worlds may feel the spiritual protection and support they need in order to go through your acute moment of purification, and the superior rays of the Mother of the World allows the transformation of your consciences and makes them available and open to keep lovingly attending to the situation of humanity.

May the celestial Love that was held in the heart of the little shepherds of Fatima also be held in your hearts, so that you may feel, in this time, trust in God, that which will lead you to make new inner decisions and will place you above yourselves, at the infinite service to others, to those who suffer the most and have nothing.

Today, dear children, upon you reflects, within the internal planes, the same event that occurred in Fatima, by means of the miracle of the sun. But now, instead of the sun shining and turning before your eyes, the inner sun of each being must shine more strongly to be able to illuminate and transmute the obscurity of these times.

Open your consciences to find the meaning and the reason to be serving and experiencing God, in this crucial moment of the planet, and not of living a common life like that of others.

So, understand, My children, that the opportunities are unique at this moment, and they will not be repeated, like in other times. In this way, you will be before the reality and the truth of being able to recognize that everything in which the Universe gives to you today can never be wasted. In this way, you will be attentive and vigilant so that your own processes of purification do not expel you from the path of My Son, but rather, by assuming with maturity the last and definitive times, you may be adults in evolution and within the action of missions of service and help, assuming, as the Hierarchy does, the moment of planetary turning that the human race is going through.

I encourage you, My children, to take another step, so that other children may have the grace of awakening, as you have awakened. Therefore, today the rays of the sun, that turned and turned in Fatima, come to your consciences to be able to remove hundreds of people from ignorance and from illusion.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
