DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

In your prayers, learn to listen to the voice of the planet and its Kingdoms. Listen to their clamor, which becomes calmer and quieter just by being heard.

The Earth cries out for unity among beings, for communion among the life that inhabits it and evolves upon it. Allow that your prayer also be for the consciousness of the planet and for its Kingdoms. Let your silence be a prayer for hearing the cry of the world and thus, for repairing it.

Listen, because nature itself also prays in the sound of the wind, of the trees, of the birds, of the animals, in the silence of life.

The expression of nature is a prayer that, when beings become silent, they can understand and participate in it. Place your words in this prayer for unity and become a part of the prayer for life.

God also speaks to you, child, through the silence of nature. Learn to listen to it.

When beings learn to live in prayer and in communion with life, then they will know peace.

Your Father and Friend,

The Most Chaste Saint Joseph
