**DAILY MESSAGE OF THE GLORIFIED CHRIST JESUS, TRANSMITTED IN MENDOZA, ARGENTINA,  
TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS**

I seek the most difficult sinners, because I know that if they achieve redemption and conversion of their lives, they will carry out their sacred task.

Thus, I seek the most difficult sinners, because I know that at this time they need a chance for purification, just as you need it.

Through the conversion of sinners, the possibility exists for changing many codes, and this allows the human project to be transfigured through the principles of Love and Mercy.

In the redemption of the most difficult sinners lies the possibility for a new history to be written, a story full of Christic Love that can redeem and purify the consciousness, just as the Universe expected.

That is why I seek the most difficult sinners, because I know it is possible to renew and recreate Creation through cases and situations that would seem impossible to solve.

When a difficult sinner finally manages to open their heart, there the victory of Christic Love manifests within the human heart, which is imperfect, but achieves a form of perfection.

I thank you for trusting in My redeeming Project!

Who blesses you,

Your Master and Lord, Christ Jesus
