DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF NIAGARA-ON-THE-LAKE, ONTARIO, CANADA, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

The priestly life and the priests represent, in themselves, the only and safe spiritual bridge upon which devoted souls may access the superior Universes of consciousness.

For this reason, the priestly lineage is something planetary and cosmic, for it comes from very ancient times, previous to the creation of the planet, in which the first priests of sidereal space were who collaborated with the Creator Father so that certain laws and gifts would be present in the latent spaces of Universal Life.

In this way, My children, you can understand that priesthood does not refer to a person. The soul of the priest is what participates in the Mysteries of the Love of Christ each time that, with seriousness, rhythm, love and responsibility, they dress in the sacred priestly garments to be able to officiate at a ceremony, which is not only physical nor routine; it is the opportunity to bring Heaven to Earth so that souls may find the ardent Love of God.

It is for this reason that there was always the wish to spiritually and physically defeat the priestly life. This is the reason for the risks that the priestly life entails in current times, bringing about a lack of contact with the Greater Universe within the priests.

For this reason, to pray for the priests allows spiritual barriers of protection to be created in the face of the harrassments of these times. But all of this depends on the priest himself who, by means of their soul surrendered to Christ, may or may not be able to accomplish their mission.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
