DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE MUNICIPALITY OF MILLE- ISLES, PROVINCE OF QUEBEC, CANADA, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Dear children,

In the end of these times, all of you will be able to learn within new schools, in the schools of daily and group instruction.

In this way, spontaneously, you will become aware of all that is deeply imprisoned within you and is no longer a part of spiritual life.

Transmuting and redeeming aspects of the human personality is a daily and infinite work of patience, neutrality and love. Without these keys, you could be in resistance and in conflict with yourselves.

In truth, the task of daily transcendence is the reason, in the most acute moments of the planet, for some aspects not to interfere in the spiritual and inner mission that everyone must accomplish.

Thus, while there is time, I invite you to take advantage of and consciously resolve all that you already know is not good for you, such as habits, customs, beliefs and personal ideas of what the results of something in particular should be.

Give thanks to the Universe that sent you so that, in this humanity, you may have the Grace to be aware and not hide from the Truth, but rather always receive the impulse to seek the Truth that will make you free one day.

I will accompany you along this path of sacred transformation.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
