**APPARITION OF THE DIVINE MOTHER IN THE SACRED HEART NUCLEUS, MADROEIRA, PORTUGAL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN**

*Friar Elías del Sagrado Corazón transmitted the words of the Divine Mother:*

Children are the first to enter Heaven, they enter before the adults.

*At that moment, one could hear the laughter of some children that were playing in the park of the Nucleus.*

Stay with Me today, here and in this moment.

**Message for May 14, 2012**

Dear children,

With joy I give thanks once more for the response of everyone. The Lord is sharing His Blessings of Peace and Love with each one of you and with your families; consequently, My children, with all the families in the world.

I want you to consider My words today, as a guideline to start living prayer as something important for each one of you.

Today I need you not only to be here, but also in the world, carrying My Peace and My Love through prayer and the surrender to God that each one of you can make in this last hour. In this way, dear children, you will be responding to the need of the world to relieve the suffering and the hearts. Thus, My Peace will be able to satisfy all the hearts that urgently need Peace and Light in order to resurrect from the life that each one of My children lives, far from God.

I also want you to know that on this day My Immaculate Heart ignites little souls so that they can live their redemption and the encounter with Love, the True Love of My Son, that today is also announced to you through My presence in Portugal.

Dear children, it is important that you live in communion with My Son so that the mind may receive wisdom from the Heart of Christ in each decision you will have to make in your lives in this time of changes.

If you were united to My Heart, I would be able to accompany you and follow your steps when you openly allow Me to.

Know that when I was here in Fatima, a long time ago, it was because of the Will of the Lord and for the conversion of the hearts. Hearts that still today, must continue converting themselves to the Glory of God and before His Judgment. Know that Mercy is at the door of each one of you. It is enough to ask for it through Christ.

Today I also tell you that many faults that each one of you know in the depths of the heart and soul have been forgiven throughout these last days by My merciful Presence, thanks to the fire of Love and of the infinite devotion that I have for each one of My children.

Also know, My children, that I only wait for you to find humility and true purity in order to be in the Lord in these times that are approaching, when He will then come to the encounter of everyone.

Your hearts, little children, must be prepared, not only through the practice of My prayer, but also through communion, confession and the daily participation of your lives before God, before His Majesty and Splendor. Here I am referring to His throne of Peace and Light that all My children must find.

And for this gift to multiply in each one of My children, you must only be in prayer. A deep prayer that builds day by day, from Heart to heart, the union with Me so that it may attract, through My intercession, all the Graces that My children, the world and the nations need in these times, above all things.

Also know that My words, which are authorized by God, are ending, but My Immaculate Heart will continue serving each one of the souls so that they may achieve forgiveness and conversion in this time.

The Lord has allowed Me to pour the last founts of Mercy to transform the hearts of all humanity and even more of those who are distant from the Father and who must ask for forgiveness so that I can take everyone towards the Promised Kingdom, announced by My Son Jesus in Jerusalem.

This promise of the Kingdom of the Father must be alive in your hearts together with prayer and the giving to the neighbor. In this way you will be able to find Light on the path, patience in the heart and peace in life in spite of what happens in the world, and I will be able to tell you that you will be united to My Heart in spite of everything.

Many still must come to the Maternal Encounter with Me. For this, My children, you must be prepared not only by opening the heart but also the arms, as I have been doing for so long, for so many centuries in this world, so that My Heart may be able to reach everyone without limits and without restrictions. In this way life is totally consecrated to the Father. This is all I ask of you: to consecrate the heart, because in this way you will be consecrating your life to My Son, who waits for all.

This is all that I want to say to you today.

But there is something else that I ask of you: do not lose what I have given you in these days. Continue united to Me within My Heart. This is possible when the soul lives humility and learns to love with the wise examples of charity and giving of life to others. You will be in this way imitating My path as a Servant, to which I want to take you quickly to enter into the Kingdom of the Lord.

Out of Mercy on the children that My Son delivered to Me, I sustain with My hands the prayers that I perpetually announce and pronounce before the throne of the Father.

Keep peace for the most important hours of this world and thus you will be able to help Me so that it can be spread over those children who will need it.

Thank you! Thank you! Thank you!

Peace! Peace! Peace for the world!

This is My perpetual prayer.

I thank you.

In the name of the Father, the Son and the Holy Spirit. Amen.

- End of the Apparition -

**Friar Elías del Sagrado Corazón:** *In the apparition of today the Divine Mother presented Herself as meditative. She appeared as the Queen of Peace, She wore a white veil and a pink tunic, and as always, She held beads in Her hands. She came accompanied by two angels that appeared as lightning and prepared Her coming at the scheduled time.*

*Generally, She lowers Her face and smiles before beginning to speak. Her presence radiated a very maternal energy. Today She told us again that She was sheltering and receiving all the pilgrims, especially those from the Portuguese nation.*

*For the second time She spoke about what happened in Fatima. She said that this event had universal importance and that everything that had occurred and was seen in Fatima on the part of humanity, was not understood in depth at that moment. She was referring to all the levels of the Portuguese nation and of the planet that the consciousness of the Divine Mother was touching and impregnating.*

*When She referred to Fatima She invited us to, above all, recall the period of Her apparitions and of the actions that Her consciousness made with other consciousnesses that were not revealed but that collaborated with Her arrival on the planet.*

*There was a moment during the apparition when She said that we should not only be with our hearts open, but also with our arms open. Then She opened Her arms and showed Her Immaculate Heart. She explained to us that by means of this sign that She was giving us today, of being with open arms, our hearts would always open and love would arise. She was inviting us in a symbolic way to do the same with everyone.*

*Today also She referred to the importance of fasting, and as a good Mother, She reminded us that the days of fasting are Tuesdays and Saturdays. She said that She considers the giving of each one by means of fasting and that it really does not matter the way each one fasts, but that She was reminding us about this exercise because it helped Her Marian Mission on Earth, mainly in the mission that She has with the souls in different parts of the world.*

*At the end of the apparition when She was leaving, She blessed this place and all those present in a special way. Then She ascended towards Heaven, converting Herself into a sphere of Light that alighted at another point. There She appeared once more as the Queen of Peace and when She definitively disappeared, in a very subtle way, She formed a shower of rose petals that covered the whole range of the hills.*

**Mother María Shimani de Montserrat:** *I would like to reflect on two things: first, the more prepared and concentrated we are, the greater the possibility of Her acting on each one of us. Our*

*minds and our lower consciousnesses need a certain vibration and a certain work to be aligned and to maintain the inner contact with the Consciousness of the Divine Mother. If we are distracted, this will not happen. When we do not make a good task of preparation, She cannot work as much with us.*

*The second reflection we wanted to make is that today She said that those important mistakes that each one knows that they have made, that which is kept deeply inside, will be forgiven by Her Mercy during these days when we will be with Her. And She also said:*

Do not lose what I have given you on these days.

***Mother María Shimani de Montserrat:*** *Does any one have any question?*

***Question:*** *Does Mary speak through the expressions of Her face or does She also use telepathy?*

***Mother María Shimani de Montserrat:*** *The Divine Mother uses various resources to communicate. Sometimes She speaks in silence, sometimes She pronounces words.*

***Friar Elías del Sagrado Corazón:*** *And She moves Her lips, complementing what was said.*

***Mother María Shimani de Montserrat:*** *And sometimes She uses Her creative power, the power of Her mind to transmit information. She uses whatever She has available.*
