DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Children,

Human growth is often difficult and painful. To go through so many stages of physical, emotional, and mental maturing require effort and dedication from those who experience them.

Spiritual growth is similar to human growth: beings experience different evolutive cycles that demand from their consciousnesses an increasingly deep and consolidated maturity.

In physical human life, the being that grows is progressively assuming their role in society, and is responsible for sustaining it and for building its future. In the spiritual life, the being that grows and matures, gradually assumes its responsibility before the Plan of God and recognizes itself as responsible not only for its evolution but also for the evolution of all humanity, the planet, and as a result, of the universe.

This last evolutive cycle of the awakening of new suns sets the threshold between the old and the new humankind. Children, it will be the time to spiritually cross this threshold and face the changes that this will bring about in your lives; to face the resistances and obstacles imposed by yourselves for this maturing, just as a young person who is in the transition to adulthood, and often resists taking that step.

Many want to live a spiritual life; they aspire to know the truth about themselves, about this world and many others, but children, what you must understand now is that this step in the spiritual life that allows you to know the truth about all existence generates a commitment that requires certain effort and transformation.

This is what happens with many youths who want to live by themselves, have their own houses, their own jobs, but they do not understand that independent life will demand immediate mental and emotional growth from them.

It would not reflect the reality that consciousnesses with a certain degree of instruction did not have the same degree of conscious commitment to the Plan of God. Children, this is the Law of the Universes, of life, of Creation.

So that new worlds may be revealed to your eyes, you must spiritually mature. And as the change of times is urgent right now, and the truth emerges even for those who do not want to see it, the very condition of the planet will demand from all immediate and concrete spiritual growth.

This growth is nothing more than a true transformation in the consciousness, a response to the Creator, with daily examples that you understand the times in which you live and your responsibility to the Plan of God.

Children, I tell you these things because now we are in the last time, and you will not read as many instruction pages as before, because everything has already been said and it is time to put it into

practice.

For the spiritual growth of humanity,

The Most Chaste Saint Joseph
