APPARITION OF THE VIRGIN MARY IN THE CITY OF PORTO, PORTUGAL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

I have come from Heaven to bring you My Peace and My Hope.

This is a reason for My Joy on seeing so many children that are being consecrated to My Heart, to have My plan triumph in the world, which are the Plans of God, in this humanity and on this planet.

Today I open the doors of the Heavens for each one of you, My children, so that you can enter, in consciousness and in devotion, the Great Kingdom of Fatima that waits to awaken the original purity in you.

You know, My children, that Europe has need of this purity. This purity must be in all the hearts that live here, so that the Work of My Son can continue forward.

Do not get tired, dear children, of listening to My words, for today I bring you the sign of My star of Light, the star that indicates the new time in humanity and that I once made appear in Fatima, at the foot of My Mantle.

This star indicates that the time of the purification of hearts is coming, so that, clean of every stain, you can be able to enter into the Kingdom of God and never again be separated from the truth that dwells in the higher worlds.

Dear children, today I finish My pilgrimage through Europe. And from this moment on, I will be sowing a new cycle when I return here once again, to embrace you and console you, so that your hearts may definitely be healed and apply for this Redeeming Work that My Son offers to each human heart.

In the same way, dear children, that I am united to each one of you and, through My words, am preparing your true consecration, I am united to each of My children of the world, to each light that emerges from each Marian Center and that unites to My Heart in this moment, so that My Work can spiritually expand in the world, and in this way, in all the souls that most need it.

It is in this way, dear children, that through your souls and hearts, I am weaving this Light Network that is expanding throughout the continents of this planet, to reinforce the alliance of hearts with God and so with His Divine Purpose, which I come to lovingly offer to each one of you today.

Extending My Hands to you, I again pour out My Graces, just as I poured them out in Argentina, a Grace for each one of you; what you most need in this life and for this spiritual path that I invite you to experience with Me, through prayer and the faith that your hearts must profess today, as the greatest testimony of love of the triumph of My Immaculate Heart here in Portugal and in Europe.

I come to this city once again to tell My hearts, My little children, who have already been initiated in this spiritual task for so many years, that you must renew, that you must take the step, so that many more souls can approach here; and that not only Portugal may receive the Grace of My Heart, but all the souls that are in Europe, waiting for this awakening, for that definite step, which they

came to experience in this incarnation.

It is in this way, My dear children, that My star of Light rests at the foot of My Mantle and reveals that sign to all.

The New Christs must wake up, be the new legionnaires of the Lord, live His Word, His Testimony of Love, His Purpose in each one of you. It is in this way that you will transmit to the whole planet this spiritual impulse that I bring you today through the Sacred Heart of Jesus.

Dear children, the hour has come for you to sign that spiritual document in the sacred book of My Heart, where your names have been written since a long time ago, so that, together with Me, united with Christ, your Lord, we may accomplish this Redeeming Work of the end of times.

I need you to leave your homes to seek the hearts that are most in need of Light; I need you to be My arms and My hands in this hour, to carry forward this Work of the Redemption of souls.

Your hearts are full of instructions, for you have received them over the years, through My faithful Son, whom I brought for you, so that you would be able to grow inwardly and learn to live in brotherhood.

Dear children, do what I ask and you will not repent (regret it). Souls must draw even closer to My Heart, to be the light in these times of darkness. For this reason, I bring and present this purpose to you, a divine purpose in the Eyes of God, which must be accomplished by each one of you.

It is thus, dear children, that My Work will not only be in the Americas, but also beyond Europe, for I wish to reach the hearts of Asia, of the Far East, who need My Voice, an Embrace, My Consolation, My Heart, My Light, to be able to continue walking in this crucial time of the planet.

You have that commitment, dear children, as European consciousnesses, to open the doors for those hearts that are so far away.

It will be the language of your hearts, the love of your spirits and souls that will open the doors for all those hearts, for there are still, dear children, many souls that must deeply know Me.

I am not only the Virgin Mary, I am the Mother of the world, I am the Greater Governor, I am the one Who rules your lives and souls, I am the shepherdess that leads the flocks of My Son toward the Temple of the Heart.

That is why I am here today, renewing your vows before leaving for the Americas, to meet all My children and unite all the hearts of South America and of the world at the Marian Center of Aurora, where the ninth year will be experienced with everyone, the anniversary on which My Consciousness definitively came into your lives.

Nine cycles will be completed and new doors will open so that hearts may be guided toward their purpose.

My wish, dear children, is that you accompany Me in this great summons that I am issuing for you to be with Me at the Marian Center of Aurora, receiving a little more inner healing for your spirits, for all your peers, for all the consciousness of the planet, which so needs servants of peace, warriors of My Heart, who in their forbearance, may achieve redemption.

Opening the doors of the Kingdom of Fatima, I congregate hearts in the Love of God and all those who join this moment, so that in this beloved Europe, peace may be experienced and professed as the purpose for these times.

Today I come as the Lady of the Great Star, to show you My Sign of Light that is still to be revealed in the simple hearts that lovingly follow My steps, with the living of prayer, of Peace, of Service, and of Love. An absolute love that fills you, renews you, redeems you, that uplifts you to the Heart of the Celestial Father.

I am that Lady of the Great Star, who brings to all the revelation of the Universe, of the true Consciousness, the One Consciousness of your Father that is still not known to the world.

Fatima is a preparation for that moment. I thus bring continuity to My Work in this time.

After having opened the doors in Medjugorje, here, dear children, I bring continuity to My spiritual Work so that souls may be consistent with God, and just as I have requested throughout time, through various visionaries, humanity may be able to accomplish what in truth it came to do, so that the New Humanity may be born.

It is through the children who are being consecrated today, just as those who have already consecrated themselves through the apparitions, month after month, time after time and cycle after cycle; I thus institute, dear children, the seeds of the New Humanity that will sprout in the next time. This is the sign that My great star brings, the promise that will, at last, be fulfilled in each one of My children, as long as you are consistent with all that I request of you.

You, dear children, are part of My celestial and worldly Work. You are pieces of this great puzzle that I come to put together again in the world, after My adversary destroyed it.

I come to concretize the true purpose for your souls in your lives, the task that you must carry out with Me in this universal summons that I issue for all today.

And this moment that you share with My Immaculate Heart will also serve for those who will be consecrated in the future, taking on their faithful commitment to Me to make all efforts to accomplish My designs, to accomplish the Will of our God, of the Most High Father.

On this tree I leave the presence of My Love for all the Kingdoms of Nature. Here I leave the sign, on this small tree, that the Kingdoms must be revered and that they also need your prayers.

You, dear children, as a single race, are here and have been here up to this time, in this planet so loved by us, because the Younger Kingdoms have generated that Grace for all.

You know that they greatly suffer the consequences of human actions, the destruction, the blasphemy, everything that humankind does against their evolution. And even so, dear children, they continue to give of themselves because of you and for you until the end of times, until My Son returns.

Tell the unjust human beings not to destroy Nature, to take care of the Kingdoms, that they do not assassinate the whales.

They, dear children, are destroying the evolution of the Creation of God and that is one of My profound pains because of the lack of consciousness, above all because of the lack of love.

Tell all of Europe, and beyond it, to take care of the Younger Kingdoms, to sow codes of light through service to each one of them. In that way, on the day of the final Judgment, you will not be judged because the Mercy of My Heart will have acted.

Have you asked yourselves at some time, dear children, why do I long so much to be over the trees? I leave you this symbol to meditate upon.

A tree represents the Wisdom of God and you, as unconscious human beings, destroy that spiritual wisdom that the Plant Kingdom reveals to the world.

Many of those who are not here today, who were forerunners of that destruction throughout time, became aware of all this after having left the Earth.

I pray for them, for the souls of purgatory, so that they may reach the Light of the Celestial Kingdom.

Let yourselves, dear children, not follow the same paths. Warn all hearts, mainly the most unjust, that they are in time to change their attitude.

The whales cry because of the consequences of humankind. Remember that I Am the Mother of the world, Mother Nature.

And when Nature is destroyed by humankind, you are destroying My Consciousness. But My Love, which is more infinite, powerful than all the errors of the world, brings the Grace of awakening your consciousnesses and the consciousnesses of your brothers and sisters for this magnificent Work of Redemption of the hearts of all the beings of the Earth.

Let us pray.

Mother of Heaven, Mother Earth, intercede for us and for the Kingdoms.

One more.

Mother of Heaven, Mother Earth, intercede for us and for the Kingdoms. Amen.

Remember that the whales are the mother consciousness for the planet. In their original purity and their innocence, they embrace all the beings of the Earth; because they balance the oceans, and also all the mental consciousnesses. Remember this instruction.

And now, dear children, together with My angels, let us celebrate this moment of consecration for taking on this commitment to Me, to be carriers of My Peace and of My Grace for all of humanity that needs it so much.

And thus, I will bless the sacred objects you have brought to My Altar so that they may be given to those who most need them. In this way, you will work on your detachment, because My Grace will fill you beyond the objects.

Be merciful, as the Father is Merciful with you.

Carry peace to all those who need it and do not forget that a fellow being must be first in your lives.

Let those who will be consecrated today as "Children of Mary" come here.

While the doors are still opening, sing the hymn of your consecration.

Flowers of light are poured out...

Three Hail Marys...

My very dear children, today I leave the Grace of My Heart so that it may take shape in your lives as the greatest testimony of your change and as a response of your hearts to the call of My Son, Jesus Christ.

By the authority the Father has granted Me and from all the choirs of Lys with all the angels of Heaven, I bless each one of your hearts and families, establishing peace and the good in each one of My children, the renewal and hope of all the hearts of Europe, so that you may fulfill the purpose of following the path toward your freedom and redemption at the moment when My Son returns, glorious and victorious among the clouds.

I place My hand over your heads, praying to My Son.

I thank you for responding to My summons and for being carriers of the celestial peace that it is possible to live in these times.

I love you, bless you, and embrace you.

In the name of the Father, the Son, and the Holy Spirit.

And now, being consecrated, proclaim this hymn in union with all the "Children of Mary" in the four corners of this world.

Go in peace.

I thank you for having helped Me to fulfill this pilgrimage and remember that I promise to return, when God so decides.

I thank you!
