Daily message of Mary, Rose of Peace, transmitted in the city of Santiago, Chile, to the visionary Friar Elías del Sagrado Corazón

Dear children,

From time to time, I choose the places most in need in the world and, with what My children give Me, I go to meet the worst and most hostile situations on the planet, so that at least one soul awakens among so many that are lost.

Therefore, where My Father and My Son send them to is to counteract, spiritually, the perversion and uncontrolled freedom that millions of consciousnesses experience daily within the large cities of the world.

Thus, I place My soldiers of peace in the first rows of the battle, to help Me transmute and endure the chaos of this world so that more souls are awakened in these times.

But, in spite of all that, as a Mother, I do not leave you alone in this mission.

I have come first to the city of Santiago to remove it from its most archaic resistance, so that the hearts that are here perceive the spiritual illusion which they experience and how they need to try harder to get out of their convenience and comfort.

For this reason, I return to Chile to give continuity to what I once did in Peñablanca, so that the souls that are here move towards God and do not go backwards as they have been doing for more than thirty years.

As a Mother, I come to ask that the hearts reach true and not lukewarm repentance. Therefore, I will need to remove that which is immobile, so that the consciousnesses may have the slightest opportunity.

If this does not happen soon, the nation will be strongly moved as it has been in previous times; except that, by not changing, this next movement would be worse.

I invite all the Chilean hearts to give an answer to the call of their Heavenly Mother.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
