Special daily Message of Mary, Rose of Peace, transmitted in the Marian Center of the Holy Spirit, Cordoba, Argentina to the visionary Friar Elías del Sagrado Corazón

My children,

Yesterday you found out about one of the mysteries of Heaven, which few consciousnesses know, through your inner union with the Kingdom of God.

Today, dear children, we will talk about the reach of the Mirrors of Heaven from the spiritual plane, which is where they emerge for all of Creation into the material plane, which is the closest reality to yours, and which receives the impulses of light of these instruments of universal harmony.

The Mirrors of Heaven are receptacles of Divine Light that radiate principles of higher life to the whole cosmos. There is no star or planet of this solar system or another, nor galaxy, which does not receive the universal impulse of the Mirrors. They remind us of the Purpose for planetary life and for all the Universe; we are referring to the Purpose of the constant elevation of matter through the principle of purity.

From the beginning, your Heavenly Mother knew about these instruments coming from the Universe of God, which are guided and accompanied by the angels, who revealed the existence of those instruments of Peace to your Most Holy Mother.

A Mirror is an immutable instrument. The Mirror of Heaven always fulfills the same purpose and radiates this principle to all of Creation.

In the case of the current process of humanity, the Mirrors of Heaven are mobilizing more and more because of the process of densification of human beings and, mainly, due to the mass transgressions of the Laws that govern all the Kingdoms created by God.

As everything is moving towards a serious psychic and emotional imbalance in humanity, because of the innumerable amount of debts and sins, the Mirrors of Heaven are now assisting, in collaboration with the angels, so that there can be at least a little bit of balance existing on the axis of the Earth and, especially, in the sleeping and abused consciousness of the current humanity.

The Archangels, called Fathers of Creation, are intervening in the Project of this race through the essence and the matrix of the Mirrors.

For you, My children, what would be a matrix of a Celestial Mirror?

It represents what is purest among the pure; we would say, what is fundamental and essential in all of Creation, what you once knew as the Rays of the Universe. They are the universal currents of Creation that, through the Mirrors of Heaven, are bringing humanity some spiritual resources that are capable of substituting an error with a state of peace.

The Mirrors of Heaven are not only attributes manifested in Creation that help in the constant upliftment of the consciousness, but are capable of acquiring and retransmitting principles of higher

spiritual life, which are totally unknown to the consciousness of humanity.

We said that the Archangels are closely following this Universal Project of humanity; what was established by Creator Law since the last world war, which was prophesied in Fatima; a war that as a result, brought about the destruction of planetary spiritual life.

For this reason, the Mirrors of Heaven, since the beginning of the existence of humankind, created in image and likeness to God, have always radiated sources of higher life that place the planet within universal harmony.

Throughout the ages, the commitment of humanity to the adversities of the enemy rapidly moved it away from the Purpose and the Will of God until reaching this cruel moment of the race.

The interventions of the Messengers of God and the warnings throughout time never ceased to be stated. Diverse forms of celestial messages have been transmitted through different visionaries in different parts of the world and in pressing times.

Receptivity to the Call of God has been scarce; humanity went on pilgrimage to Marian Centers to find relief and received it. The majority of souls that do not know of the existence of higher life received a healing, but continued to live in the same way, without changing anything.

This quickly delayed humanity and the Heavenly Hierarchy had to hold back on the impulses of the Plans of Redemption of the Eternal Father among a few consciousnesses, among the least prepared.

Up to now, this continues thus, and a real change, which is imperative, could reverse the absence of the spiritual life in humanity. Your Father knows that humanity does not do enough to change, because the terrestrial consciousness of human beings adopted ways and forms of involutory life which, in the majority of cases, has erased an awareness of the soul.

What to do?

The most awake to the life of prayer must do twice as much spiritual and evolutionary work for the rest of humanity that does not do it. But everything will fall to the ground by its own weight and the time of Universal Judgment will come to reconfigure and transmute the planet and, in this way, prepare it for the thousand years of peace.

While everything is about to happen, prayerful souls of the planet must remember the presence of the Mirrors of Heaven and, through their prayers, receive the impulses of Light that emanate from them for all of the universe.

If your response to higher life were positive and true to Creation, the impact toward the universe would be greater than what Christ generated when he defeated death on the Cross.

Everything begins in love; thus, it is the first thing the adversary causes to disappear from the heart of humankind.

Fight for the New Humanity and do not give up. Your Mother accompanies you in union with the Mirrors of Heaven. Bring about the re-establishment of the Kingdom of God in this world.

I thank you for responding to My plans of Peace!

Who awakens you to the life of the spirit,

Your Mother Mary, Rose of Peace
