DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS???

Enter in communion with the kingdoms of nature and learn to love the essence of the Creation. Observe the kingdoms and learn how to live permanently under the sublime Laws of God, in perfect harmony with the Creator.

In His Divine Plan, the Creator granted an attribute for each expression of His Divine Face, for the kingdoms of the planet to manifest.

Commune with the peace, with the harmony, with the beauty of the waters; commune with the healing and with the liberation of the minerals.

Commune with the elevation of the trees and with the constant spirit of self-giving of the Plant Kingdom which, in its humility, always delivers the best to God, no matter how it will be treated, cared for or loved by others. The Plant Kingdom knows of the Divine Law of self-giving to God and to His Higher Plan. Contemplate this kingdom and through it discover the secret of the emptiness of self.

Contemplate the Animal Kingdom and learn from its love for life; learn to defend the Laws of God, to take care of your neighbor and to be always faithful to the One you fully love. Learn from the plenitude of the Animal Kingdom and, with the same naturalness of heart, be a guardian of Life and of the Perfection of God.

Contemplate in your inner world the angels and devas, who in the invisible create and recreate the beauty of this manifested world. Learn from them to manifest beauty in silence, to work in secret and to deliver the best, without the need for anyone to know of your existence. Live the sublime attribute of humility that the angels and devas express in the world.

Contemplate the elements and how they complement one another; then discover how to share what the other needs in order to express themselves. Be like the wind, which permits the existence of fire, and gives to its neighbor all possibilities for being that which is perfect and which is latent in their interior.

And, learning from the Kingdoms of Nature, express that which is most sublime that the human being has: its possibility of learning that which is most beautiful in all Existence, and of living it, within itself, in the essence of love for the Creation.

I love you and wait for you to have simple hearts and meek spirits, always willing to observe the Creation and to learn; always willing to love and to give from yourselves that which is missing in the other, for them to achieve perfection.

Your beloved Father and Instructor,

Saint Joseph, Apprentice and Servant of the Kingdoms of Creation
