DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Revere the mysteries of God, recognizing your ignorance and love your entrance into the Divine Wisdom.

Revere the God Who hides in the Eucharist and who is revealed in a profound dialogue of love when the heart opens and is capable of hearing Him.

Revere the mysteries of God, because His Will is beyond all human comprehension and logic. The Mind and the Will of God do not move like the mind and will of humankind. For this reason, believe that the Creator Father hides in the bread and the wine and places His Divine Consciousness in the sacred elements, chosen to hold the memory of the Passion of His Son so that, thus, beings may learn to re-experience this Passion and find it reflected today in all situations of life.

God does not diminish His greatness to be in the bread and in the wine. He reveals His Omnipresence and, in this way, invites beings to deepen into the knowledge of His Spirit, of His Divine Science.

Today, child, simply revere the presence of God and let Him renew you and reveal to you the truth of your heart.

Today I come as the one who contemplates the Heart of God in the Eucharist, as in the Universe, to teach you that God is only one, present in the Cosmos as in the Eucharist, present in the Infinite as in the essence of each being.

Seek the path to find Him, create a communication with the Father, because only He will sustain you in the time that will come.

Your Father and Friend,

The most Chaste Saint Joseph
