DAILY MESSAGE OF THE GLORIFIED CHRIST JESUS, TRANSMITTED IN THE CITY OF MANAUS, AMAZONAS, BRAZIL TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

The Meeting of Mercy has finished, the spiritual Hierarchy withdraws from the Amazon, having been able, not only to transmute and free the suffering of the lower Kingdoms, but also to protect and safeguard the spiritual treasures that this sacred forest holds within itself.

In this way, the original peoples and their roots of wisdom and of brotherhood will also become more strengthened over time, so that the indigenous consciousness may continue to be the guardian of the treasures and relics of the Hierarchies.

Thus, the Amazon must now be more present than before, not only in the consciousness of Brazilians, but also in all those that, beyond what is material, understand the significance and the meaning of the Kingdoms of Nature being part of the spiritual, mental and material evolution of human beings and that, without their presence, human evolution would remain unfinished.

For this reason, all those who pray must have the practice of caring for and protecting one of the Kingdoms of Nature, be it mineral, plant or animal, so that, through such loving service, the spiritual reprieve may continue to expand the Divine Grace that will manage to compensate for the grave errors that the human being commits against all ecosystems of the Earth.

Remember and never forget that your service to the Kingdoms will be in the name of the Amazon and that it will also benefit the rest of humanity.

I thank you for moving forward with initiatives of peace!

Who blesses you,

Your Master and Lord, Christ Jesus
