APPARITION OF THE GLORIFIED CHRIST JESUS IN FATIMA, PORTUGAL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS, FOR THE SACRED CALL OF OCTOBER 18

In the name of the Father, the Son and the Holy Spirit. Amen.

I come as the Light that dissipates darkness.

Today, I come through the symbol of the Sorrowful Agony in the Garden of Gethsemane. Behold this deed before your eyes and within your hearts.

From the most profound abyss of Light of My Consciousness, inner life emerges, a path I build within the souls that follow and seek Me. Without this inner life, nothing is possible.

Behold that which is most profound in My Being and Consciousness. This is the enclosure that I have for all those who dare to enter Me through the narrow doorway of humility, so that what is superficial, arrogant, what believes to be superior but does not exist may separate from you; so that your sensible resignation, your true humiliation, your essences of peace may enter Me.

Without this inner construction that I offer to you, it is not possible to materialize the Plan and the Purpose of God on Earth. For this reason, today I come to try to remove the blindfolds from the eyes of those who are blind, of those who have lost the path of the spirit, and also of those who have never found it.

See before yourselves how the world is. Is it not a sufficient sign that inner life has become lost, even in great religions, in which the communication of these times is more important than the inner communication among souls and all the spirits that live in God?

I want you to remember that I call you to My Path to rebuild the communion with inner life, the sacred emblem of the spirit that vibrates and communes in higher dimensions and that, in the example of its life, reflects the Simplicity of God, without pride or arrogance. Therefore, this is a decisive time, it is a crucial and significant time.

Through this impulse of My Sorrowful Agony in the Garden of Gethsemane, I come so that you may remember that, just as your Master and Lord had to cross the narrow doorway of humility, surrender and the acceptance of all sins of the world, in the same way, you are also called, if you accept it, to carry the Cross of humanity with Me, the sorrowful Cross of this humanity. However, I know that you will not fully understand this meaning, because it is something spiritual.

In silence, I contemplate you and I contemplate humanity, which walks toward its definitive state of spiritual disconnection.

This is why God sends His Messengers and Hierarchies, to remind everyone about the path of the spirit and of inner life. The more souls seek the path of inner life, the more they will understand what is unknown and everything that is immaterial because there lies true life, which must be reflected in harmony and attunement with this surface to be in perfect communion with the Heights.

Today I bring you a very abstract part of My Being, which I have never revealed to the world, and that I know you will not understand it with your minds, but which you will only be able to feel with a heart that opens itself to grasp My cosmic and spiritual impulses.

My Inner Life, which is the Life of God, is a Law. In it, the absolute Love and the perfect science between the Laws of the universe and of the spirit are reflected.

Then, I tell you: how many times a day do you contemplate your inner world? How many times do you allow your intuition to guide you, rather than your preferences?

Do you understand the difference between being in communion with inner life and being in relationship with superficial life?

I do not need to give you examples of what happens in the world, because you already see them with your own eyes.

Inner life needs to be reestablished in many more consciousnesses and hearts so that your own incarnations may not be wasted or lost.

What incomprehensible pain does My Father, Who is in Heaven, feels when the essences created in the image and likeness of God become lost in the abysses of the world, or even when many incarnated essences are led to the abysses of the world without deserving them.

This is the time of effort and the exercise of communion with inner life so that even material forms may be permeated by the sacred cosmic energies that, as currents of Light, Love and Wisdom, permeate everything they touch and wherever they circulate, removing the excesses of the superficial and materialistic life of humanity, even of those who claim to be spiritual.

Because this school of the Earth, of this planet in this universe and within this Creation, is lived up to the last moment, up to the last expiration, just as I lived it on the Cross for all of you, being a Man Who learned how to love and forgive, despite the weight of the Cross of the world's errors and injustices.

When I speak to you of the New Christs, I Am not speaking of something theoretical or romantic. This is not My vocabulary. I Am speaking of a Christic life that externalizes the Truth and applies it in all its consciousness, in communion with all the Laws of the Universe, without skipping the rules of the Commandments.

This is why humanity has reached this situation, and it could become worse if communion with inner life, which is urgent for your Master, is not recovered.

I want you to know and remember that this Work, in which you participate due to an inexplicable state of Grace and an unknown merit, has been graced with the sovereign spirit of the Instruction and Knowledge of the Hierarchy. This is what, in a silent, anonymous and simple way, has reopened the doors so that souls might recover and continue to recover the path of communion with inner life.

Do you now understand where you are and what you are here for?

Ask yourselves this without fear, but with honesty, and I would even say with courage, so that the mirages of superficial life may no longer exist but rather the profound contacts with the inner world.

These contacts must not enrich the personal or spiritual ego but allow your souls to govern and fulfill this incarnation, which for many is the most significant, the incarnation of passing from one state to another, internally, anonymously.

Therefore, divest yourselves, divest yourselves every day, although you may believe you have done so; because the inner life, which is unique and inextinguishable to God, is wise, merciful and just; solemn, sacred and immaculate for the one who opens themselves to understand, live and experience it, and through their own heart, nourishes the flame of the Divine Purpose, which guides souls in this school of redemption and forgiveness.

How many more are seeking this path and still do not find the door to enter!

The Hierarchy entrusts to you the reconstruction of this path that is purely spiritual so that, later on, it may reflect itself in that which is material. And may that Law that once was fulfilled in the origin of this Work, through the venerable brother José, be fulfilled and applied in as many souls as possible, souls who, regardless of their school or even of their errors, receive an opportunity to commune again with their own inner life, which in essence is to commune with the Life of God.

Today I can share with you that which is most profound that I have, but also the most sacred that I express, not as something I own or something personal, but rather as something that is part of God, of the Living, Resplendent and Merciful God Who, in His silent cry, waits for His sons and daughters, all His creatures, to rise again from the abysses and find within themselves the path toward the origin of inner life.

If inner life reigned in the world and in many more souls, conflicts would not exist.

If inner life reigned in the world and in many more souls, there would not be conflicts or incomprehensions. Because the language of inner life is unique and comes from the Holy Spirit, which, with Its Gifts and Graces, transforms the souls that open themselves to find again the meaning of incarnating here, in this world and in this end time.

Only one Message and not even My Words would be enough to express the greatness of inner life, which is humble, austere and pure.

However, the foundations for the reencounter with inner life have been given and unconditionally granted by the Spiritual Hierarchy since this Garden of Gethsemane, which was the witness of the most unknown pains of Christ for the souls of the world.

In the face of the darkest shades of humanity and of many hearts, may the Light of inner life shine again in the abysses of the Earth, so that the fallen stars may rise to the Heavens in redemption and love, and may become a part, as so many consciousnesses of the universe, of the great existence of the inner life that God nourishes with His Cosmic and Divine Fire, which guides souls as sacred flowers that seek the rays of the Sun of God's Heart.

Lord, God of the Universe,
may the presence of inner life
be fulfilled once again in Your children,
so that everything may be renewed in Your Name, Adonai.

In the name of the Father, the Son and the Holy Spirit. Amen.
