DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF SÃO PAULO, BRASIL TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Within the essence of compassion lies the key to inner transcendence.

Through compassion, the consciousness is able to understand everything beyond appearances.

One of the reasons why human beings suffer is because of the lack of compassion for themselves, as well as for others.

Compassion teaches us how to awaken the virtue of understanding and balances conflicts, dissolving them in the divine power it possesses.

Compassion leads the soul to accept the mistakes of others and to positively enjoy the most significant and determining life experiences.

In compassion lies the balm for deep wounds because compassion dissolves divisions and strengthens inner unions.

In compassion one manages to transcend their own will and the constant habit of control and ownership because a truly compassionate being wants nothing for himself.

The being is elevated in the compassion of the heart so as to be able to embrace all difficulties and transmute them through the love that compassion itself expresses.

I thank you for responding to My call!

Who blesses you in Divine Compassion,

Your Mother Mary, Rose of Peace
