DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF LIMA, PERU, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

The daily presence of My Son in this cycle is to reinforce the warning about an immediate change in the consciousness of humanity, before everything is rapidly unleashed.

That is why, children, a conscious and responsible attitude in the face of the events of life on the planet will be important.

It will be necessary that, every day, humanity, as a civilization, review within itself everything it does; this will allow it to mature and be more prepared to face the coming times. That revision must be full of reflection and maturity so that it may have a positive effect on the consciousness.

In this way, from a large part of the race, will be born spirits, more willing to reverse what the majority commits against the spiritual and physical evolution of the planet.

It is time for each human being to become responsible for everything they do, capable of seeking inner and spiritual means to reverse all things in order to generate a global equilibrium that is lacking at this time.

This step will help in the manifestation of a New Humanity.

I thank you for responding to My Call!

Who blesses you,

Your Mother Mary, Rose of Peace
