**DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN**

My dear children:

Know that through the fraternal union of this Work with international organisms that provide humanitarian services of health and equity, Fraternidade will be considered one of the most noteworthy hands in the service of healing pain through love.

That will come about, first of all, through the spiritual formation acquired in the last thirty years. Secondly, through the integration and the experience of the community life and the group life in its different phases of work. Thirdly, through the inner and intuitive capacity of spiritually understanding the reality of the planet and of its humanity, principles given by the Spiritual Hierarchy in these times.

These three characteristics, which through the years have formed the Fraternidade -International Humanitarian Federation, are the future standards that international organisms will need, in the end of these times, to establish new humanitarian and social foundations that may help in the rebalancing of humanity through love, service, and equality towards those most in need.

The mission of the Fraternidade is to represent, on the surface of the Earth, a cultural, social, environmental, and global model that helps humanity to become aware about the importance of reversing certain worldwide factors that lead to the self-destruction of the race itself.

Disinterested and true service will be the spirit of peace of the Fraternidade, and it will seek no benefits, but rather world collaborators who sincerely support the causes and the needs of the different human groups that experience wars, hunger, exile and homelessness generated by the different nations in conflict.

Through a universal alliance with international organisms, the Fraternidade will be able to acquire a way of discharging the social and philosophical values given by the Hierarchy, seeking to teach and to establish the archetype of a new humanity.

It will be the constant exercising of unconditional service on the part of each server that will build an opportunity for each people, culture and society of this planet, for finding a path of hope to reverse the global imbalance and inequality among the different races and nations.

In this way, the humanitarian and philosophical contributions of the Fraternidade, without reference to a religion or creed, will help international organisms to eradicate the spiritual and physical poverty at a planetary level, and thus, the Spiritual Hierarchy may convey healing and relief to the millions of souls of humanity that are in inner and outer danger.

For that reason, the consciousness of this Work of love for the redemption of humanity must be very open in order to be able to accept work of a planetary scope, which will shift each server from

their habitual setting, and will be called on to be an operative branch in the Inner Plan of Christ.

I thank you for responding to My call.

Who blesses you,

Your Mother Mary, Rose of Peace
