DAILY MESSAGE OF THE GLORIFIED CHRIST JESUS, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Series - Manifestation of Aurora - Part VIII

Each one of you, as collaborators and servers of the Divine Work, will have to express solidarity with the means of transport of Aurora.

It will be fundamental to count on new vehicles and especially on a bus that permits responding to the basic needs of the Light-Community on a daily basis and which may also serve as a support for the times of meetings.

For this, Redención 1 must allow a part of its area for the building of a mechanical repair shop that meets the needs for maintenance of the bus, which will be donated with the help of everyone. The automobile repair shop of Redención 1 will also be able to have a space for the maintenance of the rest of the vehicles.

As the Community of Aurora has only a few vehicles for carrying out many trips, it will be necessary that all the servers of the Work immediately respond to and resolve this need.

The transportation sector must be based in the Community of Aurora since this same sector will serve as support for the transportation of pilgrims to the Marian Center.

This re-organization of transportation will require that some members of the Light-Community be academically trained in mechanics and electro-electronics so that the Community itself can count on more tools of knowledge when conducting maintenance.

In this sense, the whole Community of Aurora, without exception, must be trained in the care, in the maintenance, in the cleaning and especially in their awareness concerning all means of transport.

The transportation of a Light-Community reflects and represents the state of consciousness that the Community has acquired throughout the years. For this reason, the effort on the part of everyone concerning the care of the vehicles will be important; because the Plan of the Hierarchy is not found in a damaged vehicle.

It will be necessary that everyone apply the formula of love in their consciousness and also their attention on what is used for trips.

In this year of 2019, the Light Network, as a fundamental pillar of the Hierarchy, will have the goal of manifesting the first of three buses for the Community of Aurora. That response will help the approach of new hearts to the Work.

The transportation in Aurora will reformulate the form of co-existence of the Community with the

Law of Manifestation.

As of now, I give you this challenge, to be concretized before April of 2019.

I thank you for supporting the concretization of the Plan!

Who blesses you,

Your Master, Christ Jesus
