Message for the extraordinary Apparition of Mary, Queen and Star of Peace, transmitted in the city of Sao Paulo, Sao Paulo, Brazil, to the visionary Friar Elías

Get up from where you have fallen and take My sacred hands because I will set you free from pain and error.

Submerge your spirit in the Fountain of purity and of renovation so that the stones, that you have stumbled upon, may be removed from your path.

Dear child of God, I call you to reconciliation. Unite your inner ties to my Immaculate Heart and walk in silence to the Kingdom of the Redeemer.

Observe attentively the descent of My Graces, I am the Mother Star, I am the one who enlightens the spaces and universes of all consciousnesses. I am the Queen of Peace; I am the one that for love of the world helps Her little children.

Dear son, dear daughter, God the Father has encouraged you to grown from your heart, He has given you the hope to live the rebirth in Christ, given you peace to calm your concerns, given you Mercy to wash from the past, in the Fountain, your face and your hands.

Every soldier who serves the Most Holy Mother will face in prayer the great cruelties and human wars that erase love from the hearts of humans.

My soldiers are like the pearls of My eternal prayer, my soldiers are the instruments in which My Light is poured to dissolve evil from the world.

Be still in My maternal Heart and offer to God your small sacrifices. Confess your errors before God, but no longer blame yourself, for the infinite Ocean of the Mercy of Christ strikes at the margin of your life to announce the path that will lead you to redemption.

To work for God is to be in constant emptiness of oneself. To work for the love of God is to live in permanent humility. To serve God is to divest oneself, in a matter of seconds, of what might have happened.

However everything is perfect to God. He loves those who strive, He loves profoundly those who rest and loves those who at this time submerge into the darkness and into the modern aspects of the world.

Nevertheless, the prayer of the Holy Rosary intercedes before God. The Holy Rosary wholly repairs a consciousness that is wounded in the spirit. The Holy Rosary unites and strengthens the love for the Plan of God. The Holy Rosary liberates, purifies, orders, harmonizes and cultivates the hope of living sanctity. Sanctity, for human souls is a challenge that few dare to live, for sanctity first removes the veils from the consciousness and then impels hearts to live inner consecration.

And in all this path of constant purification of souls, is the regency and observation of Heaven; that the Most High God and Jesus Christ follow, step by step, the advances or delays of the children.

Heaven waits for the birth of new and humble saints, like the ones there were in the past, so that through simplicity and surrender, they offer themselves to transform the chaos of the world and the great scale of perdition in which the precious souls live.

Thus, as it was in other times, the lesser ones in the world will achieve greater things and the Celestial Universe will closely accompany the challenge that the new apostles will live. In the end, all the good and faithful servers will congregate in Heaven to share the Glory and Grace of God for having been converted into example of service and surrender to God.

The Queen of Heaven will always help Her children, for your Divine Mother will wait for many more to decide to serve humanity in this time, so that, in this way, the Mercy and Forgiveness of God may descend, instead of Justice descending.

However, the path to follow will be infinite. My servers will cross bridges almost broken, prairies and deserts of the world that have lost the original brightness of Creation; and everything will be accomplished through effort and love to change the consciousness of those who still sleep into the dream of the world.

Your Mother comes, Apparition after Apparition, to awaken all Her children to the supreme Truth, the consciousness that it is urgent to pray for the whole world to leave the superficiality in which it lives.

If new disciples of Mary appeared, My Immaculate Heart will triumph in America and in the whole world.

The time that you live today is a time of great changes, I only ask you to awaken to what many of my children do not want to see, which is the need to purify oneself and to consecrate oneself to the supreme Will of the Father.

I will always guide you as long as you pray the Holy Rosary for the salvation of humanity.

And whole

I bless you and thank the groups of Campinas for allowing that the Mercy of God be poured out.

Mary, Queen and Star of Peace
