**WEEKLY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED AT THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS**

**The sustenance of the Light-Communities**

So that the Islands of Salvation may be present in the final cycle of the planetary transition, it will be fundamental to follow some rules, which will protect the functioning of the Light-Communities from yourselves.

**•First rule: The Law of Hierarchy**

Before any personal or group occurrence, it will be necessary to remember and live the Law of Hierarchy so that the design may be correctly fulfilled; that the Light-Community be part of a Universal Government supported by the Hierarchy.

So that the Law of Hierarchy may be lived within the community, it must be deeply loved and respected, following in unity the guidelines that are given, day by day. This will allow the giving of support for the Spiritual Hierarchy to be present and within the consciousness of the community.

**•Second rule: Obedience**

It is a fundamental attribute to apply within group life of a Light-Community, because obedience not only physically protects the community from countless unexpected events, but obedience also leads each member of the community to remember that they are within the Law of Hierarchy.

The obedience that is not respected nor applied in this time by humanity, within the Light-Community does not allow for the approach of the spiritual Hierarchy; because without obedience, there is no compliance with the Law, there is no order, there is no rhythm, there is no ceremonial.

Obedience is the main spiritual instrument that protects the evolution and the awakening of the consciousness and, above all, it protects the consciousness of a community member from personal initiatives and ideas, from personal will and from all individualism.

Obedience gives meaning to the spiritual and inner path. Without obedience, there can be no contact with the Hierarchy nor confidence established between both parts.

**•Third rule: Love**

Love must always be the fundamental basis of a Light-Community that aspires to always be in the presence of the Hierarchy, because love does not allow the community to be individualistic, sectarian or autonomous. Love, as the main key that opens doors, allows for granting the joy of experiencing service, regardless of what it is and where it is, love is not selective nor possessive.

Love in the Light-Community has to be expressed in gratitude for what you have and in the opportunity that each member of the community has received, of being able to be before the mystery that was conceded by God for the existence, for example, of a Work such as this one.

Love allows for attracting the Law of Manifestation and Divine Providence to the field of group life. The Light-Community must be supported by helpful love so that it may never be tainted with goods, but rather that in the austerity of the essentials, a life full of God and Truth may be built.

These three fundamental rules for communitarian life intertwine with other rules or principles such as service, charity, the common good, fraternity, brotherhood and mutual cooperation.

When the three first rules are lived, not only in the community but also by each member that integrates it, the Grace is received of being able to understand what it means to work for the Hierarchy in order to build on the surface of the Earth the Plan of Love and Redemption.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
