**DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF SAN FRANCISCO, CALIFORNIA, UNITED STATES, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN**

### **The Holy Grail: Instrument of Divinity and of a Legendary Brotherhood**

From the moment in which Christ took the Holy Grail into His Hands, so that it could be the repository of all the Christic codes of redemption, from that moment, the Archangelic Consciousness of Michael established a spiritual union between souls and God in a definitive way, capable of sustaining itself inwardly throughout the ages, unbreakable to any opposing force.

This spiritual alliance, this celestial communion, which was celebrated by the Archangel Michael Himself with all souls, through the Most Powerful Firstborn Son, closed a decaying and involutionary cycle of humanity.

It was in this way that, through the Holy Grail, seven new principles were established in the Last Supper that all souls in redemption, and mostly all those who would seek this communion with Christ, could live consciously.

The first principle that the Archangel Saint Michael established was the principle of **Reparation**, which is the grace of being able to restore the alliance of souls with God through communion.

Second, the principle of **Redemption**. The opportunity of sending out all sin through a sincere confession with Christ.

Third, the principle of **Liberation**. An opportunity for detaching forever from all the chains that bind souls to the abysses of the Earth, and to all hells.

Fourth, the principle of **Healing**. The culminating moment to spiritually restore oneself through love and unity with God.

Fifth, the principle of **Ascension**. The opportunity of elevating the consciousness in dimension and in vibration through the inner fusion with the Body and the Divine Blood of Christ.

Sixth, the principle of **Forgiveness**. The possibility of closing past cycles and of remaining in the eternal present to live the reconciliation of one's consciousness with the Celestial Universe.

Seventh, the principle of **Rehabilitation**. The ability for completely accepting the service to the Divine Plan and the fulfillment, throughout all phases of Higher Purpose.

Through these seven principles, through the Holy Grail that was transfigured with the Precious Blood of Christ, Blood that was shed in that moment, the Archangel Michael wanted to show humanity the incalculable value that the Passion of Jesus would have, and all the spiritual benefits that the same event would provide throughout time.

It is thus that the Holy Grail is a universal instrument, a cosmic and divine symbol, capable of awakening within us the Christic codes, those emanations of love-wisdom that arose from the

Source, from which all creatures of the Universe originate.

It is to this powerful Source that the Holy Grail, this powerful instrument, leads us and essentially communicates to us that in this moment the holy angels and the elevated consciousnesses of the Spiritual Universe are reverently carrying it throughout each one of the nations of the Americas until it reaches the United States, to draw toward humanity the memory of returning to the principles of Christianity and peacemaking in the face of the planetary events that the human race is experiencing.

The Holy Grail, which is divine and spiritual, is lovingly transferred by an Angelic Brotherhood, the same that in the culminating moment of the Last Supper of Jesus with His apostles, witnessed the hidden and positive task that the Archangel Saint Michael carried out within Jesus Himself.

From that moment onward, this has given the world the opportunity of recovering communion with all the saints and angels so that a greater balance may be established in the consciousness of humanity.

The Holy Grail brings these types of celestial currents to a humanity that in these times will awaken in an intense way because of what they will have to experience.

The Holy Grail reminds us that we must be like Mirrors, able to reflect the principles that the Divine Source provides for humanity upon the planet and throughout the whole human race.

For a few days the Holy Grail has been in movement, in a sacred spiritual pilgrimage throughout the Americas, so that some events may not be triggered, and all can be balanced.

This event, which is not only universal but also divine, will allow the doors to open so that the corrupted states of consciousness may be liberated, healed and redeemed, and, in this way the planetary consciousness may recover certain values that were lost.

In its totality, this purely spiritual and inner event is supported by the Archangel Saint Michael.

And now that the Celestial Messengers await the arrival of the Holy Grail in the United States, the hearts of this nation prepare to receive this last and great impulse of Light and Redemption.

Your Most Holy Mother thanks you for the communion that souls have had in these last days with this holy instrument of the Brotherhood.

In Unity and Love, who thanks you for responding to the final call,

Your Mother Mary, Rose of Peace
