**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED AT THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS**

Dear companions,

The arrival of a new cycle for the human consciousness approaches the human consciousness, especially for the consciousness of the planet; it is the spirit of Earth that shelters you, welcomes you and, with so much love and self-giving, sustains you.

This cycle that will come will impel human beings to offer to the Earth's Divine Project their true potential and, for that, it will help them to purge from their own interiors - the conscious and unconscious world of each being - those codes that they have generated as humanity and that, gradually, have been degenerating what they should express as human consciousness.

This new cycle will try to help this Earth's project so that the Kingdoms of Nature may no longer be that which is sustaining the consciousness of the planet, but rather that there may be conscious human beings offering the most possible so that the planet may fulfill its function within the Plan of God.

In the Project of the Lord, when He created this world, filled with manifestations of His perfection, through the different cohabiting Kingdoms of Nature, God thought of a living expression of fraternity and unity among His creatures, however different they might be.

The Creator tried to make of the Earth a school of love and evolutionary cooperation, so that each Kingdom would bring to the other something vital for its existence. This is why the Earth needs balance to exist, the balance that is generated in the different Kingdoms, including the Human Kingdom.

Especially the Human Kingdom should generate a special harmony and love within its corresponding Kingdom, as humanity, in order to inspire the evolution of the others Kingdoms of Nature.

In a way, all Kingdoms have fulfilled their part, except for the Human Kingdom, which is the great pillar of the Earthly Project. The Plant Kingdom is the expression of self-giving, elevation and beauty, as it was supposed to be. The Mineral Kingdom is the expression of purification, transmutation and sustenance, as it was supposed to be. The Animal Kingdom is the expression of fidelity and love, it is the guardian of the spirit of cooperation and evolutive fraternity in each species, as it was supposed to be.

The Devic Kingdom continues to create beauty and praise to the Creator and, together with the Elemental Kingdom, sustains and animates the other Kingdoms of Nature, as was its part.

To the Human Kingdom, it would correspond to be a bridge of communion between all Kingdoms; the one that cares, supports and protects, loves and helps so that each Kingdom can express itself. The Human Kingdom should create conditions for the devas and plants to express their beauty; for the animals to be able to bring to the planetary consciousness the unique attribute that each species possesses in its essence; for the minerals to be able to nourish and assist the other Kingdoms and act with freedom in the world.

The Human Kingdom should be the bridge to the Divine Consciousness, bringing the spirit of constant evolution and growth so that Creation would never become stagnant and the Kingdoms would continue to take evolutive steps and gradually change their spiritual school. In this way, new essences would gradually arise and permanently renew the Creation of God and, from the laboratory of the Earth, the whole Universe would be able to be renewed.

This is a part of what the Project of God represents.

The new cycle of which I speak will accelerate the human purification and will be more or less harmonious, depending on the conscious collaboration of each being. This will be so that, as far as possible, the idea of fraternal life may gradually manifest itself - even though it may be manifested only in a few individuals and in islands of salvation and of expression of God's Project - and so that this Plan may also be materialized.

After eons of time of experiences that did not have the expected result, the Creation will give a solar impulse to humanity and to the Kingdoms of Nature, as a last opportunity of concretization of the Divine Plan.

It is important for you to be aware of all this and to collaborate, fulfilling your own part in this Plan of Love. This is why I tell you all these things.

Your Beloved Instructor and Companion,

The Most Chaste Saint Joseph
