Daily Message of Mary, Rose of Peace, transmitted in the Marian Center of Figueira, Minas Gerais, Brazil, to the visionary Friar Elías del Sagrado Corazón

Mother of the most simple among the simple

I am the Mother of the most simple among the simple because, in this way, all will know My Truth.

I am in the simple gestures of love, service and charity.

My intention is that all My children find their Mother in the true simplicity of things, seeking the best for a fellow being, for the sick, or for the poor.

The Love of your Heavenly Mother is also reflected in the simplicity of Her poverty. In this way, souls find a model of freedom and of surrender in the Mother of God.

I am the Mother of the most simple among the simple; I have given Myself to My children and I take care of their souls so that they may learn to take care of their bodies.

I bring an unknown relief, a relief that emerges from within My Heart and is a source of healing and hope that is poured into those who invoke it through the simplicity of their hearts.

I am the Mother of the most simple among the simple and, within them, I easily build the Kingdom of God, for in their inner worlds I find a great opening, adherence and consent.

In the most simple among the simple, life can be regenerated, and the spirit of a being can be filled with other Laws when it loves life and its existence with simplicity.

The children of life are the most simple; they are those who manage to feel the poverty of a fellow being in their hearts because they want to provide for that through their prayers and their loving service.

In the most simple, God easily shows Himself, because He does not have limits and He can show Himself through His creatures, just as He showed Himself to His Servant the first time.

True simplicity is a powerful essence, capable of moving mountains as well as awakening faith. The simplicity of the heart leads to the awakening of an unbreakable faith, capable of generating a permeable stream of love and charity in the world.

I am the Mother of the most simple among the simple and I see Myself reflected in the soul that tills the soil, as well as in the homemaker who prepares the food for nurturing their children.

I am the Mother of life, and where there is life, My maternal Consciousness is present so that My children can thus find the meaning in their lives and the purpose for their existence within the school of love and unity.

In the most simple the warm prayer of the heart is portrayed, for in the most simple, there is no interest or complaint; what exists is only the love for life and for all that has been created; for the humility and simplicity of these hearts allows them to understand many things and lovingly feel everything they experience.

I am the Mother of the most simple among the simple because My Heart is reflected in them, just as God was reflected in your Heavenly Mother, like in a great Mirror of Love and of Light.

The surrender of His Servant allowed the simplicity and the Love of God to be seen in the humility of His Server and in the Love of His beloved Son.

Simplicity could renew the Earth and all consciousnesses, because in the most simple there is no opinion, want, or desire. The most simple are permeated and filled with the love of their inner Christ, something that strengthens them for experiencing their daily tests and for fully confirming their lives on the path of faith and of the hope of being able to be in God.

I thank you for responding to My call!

Who blesses you with love, faith and simplicity,

Your Mother Mary, Rose of Peace
