DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED AT THE MARIAN CENTER OF AURORA TO THE VISIONARY SISTER LUCÍA DE JESÚS???

Today I will only ask you to every day try living the Divine Purpose; to try to be meek of heart, pure of intention and truthful on your path.

Try, every day, to live fraternity and love, to recognize the presence of God in others, and, thus, to be humble before everyone.

I ask you to try thinking a little less about yourselves and each day cease to do something that is a self-priority in order to serve others.

Try to love the Kingdoms of Nature more, to observe them, even if for a brief moment, every day, allowing your soul to be inspired through them.

I ask you to try praying from your heart, to talk with God before His Celestial Altar, to offer Him the best there is within you to balance the faults of humanity.

Try to find in those who are most lost a heart in need of peace.

Try to dissolve hatred from your hearts, as well as anger and rancor. Understand that everybody makes mistakes out of ignorance and that love, forgiveness and reconciliation are capable of healing things that are completely unknown to you.

Try, every day, to forget the past, not to be indifferent to all that you have lived nor to forget those who have accompanied you in other times. Forget the past in order to free the spirit so that you may live something new. To forget the past is to free the mind, the emotions and the heart from all that has happened. The lessons and memories remain in the consciousness, but the spirit frees itself in the certainty that what is real still awaits its awakening.

Dear companions, today I ask you to try to be simpler of heart. Try to accept the corrections of life and immediately straighten your paths without fear, without rancor, but with much peace and gratitude for taking steps in your lives.

I ask you to try to love the Creation of God more, His Plan and the greatness of His Purpose for this planet. Try to let yourselves be permeated by the Mercy and the Love of the Divine Messengers.

If you try every day to live a higher principle, Heaven will listen to your hearts and, with the first step that you take in the right direction, God will take charge of making you reach His Divine Goal. The secret is to not stop trying and persevering, every day, even if you fall and get up innumerable times.

Try today to feel My Chaste Heart, and from the blessing that I deliver to you, make every day the perfect impulse for your elevation and permanent transformation.

I love you and I bless you always.

The Most Chaste Saint Joseph, in the eternal attempt of taking humanity to the Heart of God
