DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS?

While the enemy tries to strengthen the lust for material power and discord between nations and the different religions of the world, may those who are still lucid and firm in the aspiration of following the divine purpose strengthen their conviction that the only Power is the one that comes from God and that all religions that lead to the Father must be respected.

Children, understand that the spirit of this next mission to the Middle East, as also to Chaco, is the unity, the possibility of being united in love and respect to the different cultures and ways of revering God, who is the Only One.

If the souls walk to God under the spirit of love, fraternity and of unity with the neighbor, it does not matter how you go through this path, because - when the time comes - God Himself will unite all paths opened by Him throughout the human existence to merge them into a single destiny, which is love and unity with Him.

The most important thing is giving an example, to the world, of the possibility of love existing between different religions, cultures and nations. It does not matter if Christians are persecuted in the Middle East: the fact that the Christians of the West continue helping this people, with the intention of dissolving the hatred that expands in the hearts, it is a great act for God, which will balance many evils of the planet.

As the missionaries are going to the Middle East, may all the prayerful beings of the world accompany them with their hearts and unite themselves to this purpose to truly pray for the different religions, to strengthen themselves in their essences of union with the Only God, who is the God of Love and of Truth.

Children, do not allow that the enemy reach his goal of destructing, from the human heart, the Faith in your religions and the essence of all of them. May all the true religions, which are those that lead to God, keep their purity and their essence alive, so that they keep reconnecting souls to the Creator, as it is the purpose of the existence of each one of them. Also in Chaco, in Argentina, you must learn the religion of the heart, that which transcends institutions and is based only on the true meaning of the word, which is to reconnect yourself.

May, little by little, love and respect be planted in the human consciousness. This is the Will of God for this time. May, despite all differences, there be unity among the beings. May the different paths be ways of conducting different souls to only one purpose: love and unity with God.

If you learn to give your lives for your friends, to love and to forgive above all things, you will be living the Christic principles, even inside of other religions. It is this way that the consciousness reaches Christification, even though it only comes to understand the essence of its experience when it transcends the physical level of this world.

Christ is hidden in the essence of all the true religions because who lives in Love, lives in Christ.

I love you and bless you.

The Most Chaste Saint Joseph
