Daily message of Mary, Rose of Peace, transmitted in the city of Saint Esteve, Barcelona, Spain, to the visionary Friar Elías del Sagrado Corazón

The power of the voice of the heart

Dear children,

When a soul sings in devotion to God, the doors of the universe open and, between this consciousness and God, a perfect bridge of love and unity is established.

The gifts descend and are shed upon the world when a soul offers to the Creator the tone of its voice as an instrument of redemption, cure and conversion.

Therefore, My children, when the souls sing, the universes open so that all may recognize their divine filiation with the Father, the Son and the Holy Spirit.

At this time, the voice of the heart will maintain the balance of the planet and whoever sings in offering and self-giving will be in the Kingdom of God, even if it may not seem so.

The voice of the heart of the creatures on Earth can change the destiny; and the majority of the hearts, that are in profound ignorance, receive the opportunity of awakening.

The voice of the heart is unmistakable and establishes perfect union with the Creation and with all life.

As souls sing to the Most High, the more Graces they will attract to the planet in these moments.

The voice of the heart is a voice of true love, without opulence or competence.

The voice of the heart unites and recreates all things, because it is the Spirit of God that awakens in the hearts the impulse to always sing to Creation.

The voice of the heart has no barriers and opens the door to the hardened hearts. This voice is offered to the Father as an instrument of salvation.

I thank you for responding to My call!

United to the voices of all praying hearts,

Your Mother Mary, Rose of Peace
