DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Let your fortitude be always in God and with the eyes of observers may you always perceive your own weaknesses as a part of the human condition, that which, with His Breath, the Creator can transform and convert.

Always place your weaknesses at the Feet of God and let Him show you, in the silence of your hearts, that which you could not confess to, because you did not wish to see it, so that empty before God, you may receive the grace of beginning again.

Let true prayer uplift you and communion with the Cosmos strengthen you.

In this time, children, you will look at yourselves and you will not see more than dust and miseries. But if your gaze and your heart are supported by the power of prayer, with your attention on the Universe, you will be able to understand the temporary things of life without losing faith in the Truth, which waits for you to awaken.

Let the light, more brilliant than the sun, eclipse your eyes and remove them from the human blindness. It is time to say "yes" to God, becoming firm in His Presence and in His Grace.

You still have time to receive Mercy and to transform your destinies. Do not let the opportunities go by without their entering, filling and transforming your hearts.

Pray, children, and inwardly contemplate the Infinite. Let the hope of returning to what is real never disappear from your hearts.

Your Father and Friend,

The Most Chaste Saint Joseph
