

Prayer for the Fulfillment of Inner Life

On [October 17, 2024](#), Our Lord said:

"From the most profound abyss of Light of My Consciousness, inner life emerges, a path I build within the souls that follow and seek Me. (...)

If inner life reigned in the world and in many more souls, conflicts would not exist.

If inner life reigned in the world and in many more souls, there would not be conflicts or incomprehensions. Because the language of inner life is unique and comes from the Holy Spirit, which, with Its Gifts and Graces, transforms the souls that open themselves to find again the meaning of incarnating here, in this world and in this end time. (...)

In the face of the darkest shades of humanity and of many hearts, may the Light of inner life shine again in the abysses of the Earth, so that the fallen stars may rise to the Heavens in redemption and love, and may become a part, as so many consciousnesses of the universe, of the great existence of the inner life that God nourishes with His Cosmic and Divine Fire, which guides souls as sacred flowers that seek the rays of the Sun of God's Heart."

Lord, God of the Universe,
may the presence of inner life
be fulfilled once again in Your children,
so that everything may be renewed in Your Name, Adonai.

Amen.
