APPARITION OF THE VIRGIN MARY IN THE CITY OF OSLO, NORWAY, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

I have come from Heaven with a special request: to gather you all around My Immaculate Heart.

Today, I am calling all consciousnesses to a greater meeting. My Universal Light, on this afternoon, blesses the skies of Norway, and for you I bring a Greater Grace: I am opening new doors for souls, and this is possible through your inner 'yes'.

This Grace will reach all of you and will be able to expand toward those who do not deserve it. Thus, I call you to a greater task; and in this way, I will be able to gather you all together in the Heart of God, because God is in everything that was created here.

You must open to feel the love that nature radiates. In this way, you will be in communion with the Celestial Kingdoms; you will be able to be reborn to life and hope.

God desires that in Norway, through My Heart, which I offer you, a Pure and Immaculate Heart, you may take the steps toward the Greater Universes.

I Am the Star of the Universe, the first Star that is born at dawn, which all can see at each new day.

I Am the visible Sign for the end of times.

I Am the Revelation for your wounded hearts.

I Am the Supreme Healing that can cure you.

I Am the Source of the Love of God.

My Luminous Consciousness re-ignites hearts.

I come at the request of Christ, your Savior and Redeemer. He has asked Me to be here today, with you, for you hold in your hearts a Cell of Christ, which must be activated at this planetary moment so you may be at the service of God. I Am the Mediator that will allow this to happen.

I come to give Myself in Love to you. Christ has entrusted Me with being the Mother of all. I was at the side of the Great Redeeming Consciousness; thus, I know the condition of humanity, a condition I want to release through you, through your prayers and pleas. And that will be possible, dear children, when you dare to walk at My side. Nothing bad will happen to you.

I Am the Maternal Consciousness of Love. I want to lead you to a healing and a profound reconciliation of consciousness.

I want to make your inner universe known to you, an inner world that you still do not know, but which exists within you. It is the living and luminous God; it is the Creator, the Supreme; it is the

One Who has created you in the beginning. He wants to awaken in you through Communion and prayer, through that Christic Light that exists in you and awaits awakening.

I ask those who have accompanied Me for such a long time, to be with Me in this instant, because I also need you in this Work. You opened the doors to those who are here today. Your help, giving of self and surrender have allowed My Divine Spirit to be here with you, giving you an opportunity, guiding your hearts, taking you toward the Kingdom of Light, of redemption and of conversion.

And in this way, I am here with you, calling on you to be with Me; opening a new path for your spirits, for your supreme consciousnesses that must return to the House of the Father.

In this moment of blessing, I give you My Graces and I speak to you, on this day, through this son of Mine, so that your hearts may be strengthened, do not tire of listening to Me, but rather are glad for this Greater Grace.

This is My Message for you: I will be with you in the silence, with your families, in this beloved nation that manifests the beauty of the Creation of the Father.

Thus, dear children, I hold you all in My Maternal Heart, in My Solar Heart, in My Universal Spirit.

On this afternoon, I also bless the Children of Mary who approached My Heart to comfort it and join My Mission.

May the blessing of the Sacred Father and of the Divine Son, in perfect union with the Holy Spirit, be among you, guide you and illumine you.

Know, dear children, that when you call Me in prayer or in a sacred invocation, I will be in your lives. I Am your Mother, the Mother of God, the Mother of Heaven and Earth, the Mother of Nature, the Mother and Star of the World.

Under My immaculate blessing, hold within yourselves My Virginal Purity.

For this moment, and for all those that will come, sacred Norway, children of the Supreme, I bless you and thank you for responding to My call.

I am grateful for the faithfulness of those who will follow Me in the future, and I am deeply grateful for those who made this spiritual pilgrimage, this Grace of the end times, possible in this Material Universe.

Thank you for translating My Words; that is also important for God, that My Message of Peace is able to reach the world.

I thank you.

In the name of the Father, the Son and the Holy Spirit. Amen.

Mother María Shimani de Montserrat:

After this very intimate moment we have experienced with Our Lady, in which, in spite of the few words, we were able to feel Her very perfect Love and that majestic tenderness that Our Lady has, with which She embraces all Her children, we want you to remember what She said, because She wants to be here among Her children of Norway.

She wants you to learn to know Her as the Supreme Universal Mother, She Who brings us perfect peace, great protection and Who teaches us to discover faith so we are able to be united with the Heart of God and that nothing can confuse us, nothing can inwardly move us, no matter what is happening around us.

She wants to be at our side so we may feel protected and begin to learn new things that have to do with the mysteries of the universe. When we are able to open the door of our heart, we are going to know many things.

We who are on the pilgrimage with Our Lady, have come to know a very beautiful nation. While all peoples leave something in our hearts, these brothers and sisters who seemed so far away and sometimes seem a little different, have filled our heart.

We are very grateful for the opportunity we had, this morning, of sharing a Communion with Christ with some brothers and sisters here in the city of Oslo, and this shows us that Christ is the same in all places and that our love for Him will always unite us.

Thank you very much for having received us in this nation. We leave you all our love and all our gratitude. Hopefully, God will someday allow us to return, and we are able to pray at the shores of those beautiful lakes you have, where great spiritual mysteries are held.
