Special Apparition of the Virgin Mary in Vina del Mar, Chile, to the visionary Friar Elías del Sagrado Corazón

Today I am here as the Lady of Carmen, because I am the Great Star of the Sea, the Star that takes care of all the seas in the world.

Today I bring you the teaching and instruction on the oceans, so that humanity can look with a little more compassion towards them. Because although it may not seem so, before the human gaze, the oceans suffer the consequences of this humanity.

That's why I am here, in Vina del Mar, to deliver a mission to all of My children of Chile, because this dear country is completely embraced by the Pacific Ocean and this brings it the possibility of working deeply with its emotional plane.

Therefore, dear children, you who love mountains, who love nature, who love the ocean, I invite you, dear children, on behalf of this humanity and of this planet, of all the oceans of the world, to look at the oceans with more compassion, mercy and prayer. This will allow, dear children, in spite of the suffering which the oceans and all the marine beings live, for souls to receive a special Grace that comes from Our Lady of Carmen, the Great Star of the Ocean, so that more hearts may awaken to the importance of taking care and protecting the oceans.

You, dear children, more than your Heavenly Mother, know the damage caused that life in the oceans experience and how much contamination they live day by day.

How will they be able to reflect to this humanity, by means of their mirrors, emotional healing for this planet, if all the oceans in the world through the hands of humanity itself, continue to be contaminated and outraged?

If the ocean could speak, the world would hear eternal cries.

Today I come as the Mother of Nature and also as the Great Guiding Star of Chile to invite you, dear children, to place in your daily prayer not only the Pacific Ocean that embraces you, but also all the oceans of the world, which need intercession and prayer, so that the very angels of the universe can clean them spiritually.

It is up to this humanity on the surface to take charge of the damage caused to the oceans. Know that the oceans of the world have inner ears with which they can hear many things and with which they receive great outrages from this humanity.

I invite you, dear children, out of love for the evolution of the oceans, to open your hearts to welcome this call that your Heavenly Mother and Mother of Nature brings you today. If nothing is done in time, the whole world could remain without water and even less, it would not have water to drink.

Humanity does not imagine this situation and has no consciousness of what this means for these end times, but if at least there existed sincere and open hearts that could unite to the oceans and to all

marine life, which is also trespassed day by day, the Eternal Father would be able to grant something to this humanity, through the Lady of Carmen, so that many more things may be avoided.

I invite you, dear children, to open the ears of the soul and to listen with the heart to what the Celestial Mother is bringing to you.

I would like many more children in the world to consider this important call for love and for the evolution of oceans.

I would like My children of the world to respond to this convocation, because just as I come for you, I also come for the oceans of the world, which day by day lose their original purity, their innocence and mainly, the possibility to radiate their light to the world.

Humanity needs the oceans to move forward. Human beings cannot live without water and neither without having anything to drink. Imagine a totally thirsty and arid planet.

For the mercy of the mountains, they continue pouring water from the high glaciers of the world. This helps humanity to have fresh water to drink and to nourish itself day by day.

I invite you, dear children, to take a step in consciousness, for what the Father has given you since the beginning of your Creation and for everything He has thought of for you, for your evolution and for your awakening.

I would like you to place My plea in your hearts, because if you do not do it for Me, no one in the world will do it. I am being sincere about this.

I can no longer see marine beings, whales and dolphins suffer through the hands of the humanity of this world. And even though the outrages are endless, greater is the Mercy of My Heart, which today comes to speak to you and lead you towards the path of reparation and of forgiveness.

I know that many will not want to listen to this message because they will feel uncomfortable or perhaps annoyed to know that the world, as creation and as nature, needs the consciousness of the human being and especially its correction and attention, concerning everything it does daily, transgressing the Kingdoms of this Nature.

You cannot live without the Kingdoms, without the oceans and neither without the mountains. Your spiritual life would be scarce, limited and restricted. You would have few possibilities to reach God.

That is why in these critical times, dear children, I invite you to pray from the heart to be able to compensate the outrages that this humanity makes to the oceans of this world. They need to mirror the information of the universe. This information allows you, dear children, to take steps on the spiritual path, to have impulses to serve and mainly to have reasons to be able to transform.

Mirrors reflect in humanity, through the oceans, great divine principles, which will be necessary for the next humanity, for the future humanity.

You will be the guardians of this legacy, as well as the guardians of the Kingdoms of Nature. I need you to take care of the inner treasures of the planet, because later you will not be able to say, dear children, that no one warned you in time.

The Mercy of My Heart comes to meet you to live a deep awakening in consciousness, so that you may abandon this global hypnotism which leads many souls to constant distraction, to separate from God, from the path of Love and Truth.

I need you to take steps for your brothers and sisters not only here in Chile but also in the world, out of love for the Kingdoms of Nature and for the great oceans of this world.

The consciousness of the Kingdoms cry out to this humanity. They can no longer see instructors on the surface, guides or masters of this humanity, but rather see souls that outrage such small consciences as the Kingdoms. And they have nothing more to do nor to defend themselves, because they were not created to hurt humanity of the surface nor to disturb it.

The Kingdoms were created so that the beings of the surface, through them, could find communion with the Creator and with life. If this is lacking in humanity, that is, in the Kingdoms of Nature, as well as the great oceans, humanity will have no path to follow, to be able to find the light, reconciliation and especially forgiveness.

This is why I come here, dear children, because I know that your hearts are receptive to this call of Mine, and that you could not see the oceans, marine life, the great whales of this planet suffer, which sustain the axis of Earth, from north to south, from east to west. And although they are hurt and murdered, the consciousness of the whales does not cease to radiate love, in spite of the ignorance of the human being.

I would like the whale to be able to continue singing in the oceans of this world, to balance the Earth, to pacify the seas, to heal the emotion of this humanity, which is unbalanced.

The Kingdoms of Nature have a fundamental task in the end of times. Therefore I come today from the Pacific Ocean with this message, where I have made a pilgrimage from Asia to here, to meet you in prayer and in union with Me, because I am still preparing My Mission through that continent.

I want you to be conscious of this, and I will need, dear children, as up to now, that you accompany Me for this very important mission that I will realize in Oceania and in Asia, because My children are waiting for me, as you waited for Me today, and this goes above any event, any situation or circumstance.

I need that your consciousnesses be positioned above the material plane, the difficulties and the obstacles, to be able to accompany your Heavenly Mother in this Work, in which She, at the request of the Most High Father, will try to awaken all the Mirrors of the world to help humanity in the most acute moment of its transition and of its purification.

Do you understand now, dear children, the importance of praying for the oceans of the world? If this does not happen, who will sustain this race of surface? If there are no Kingdoms of Nature, who will be there to support and accompany them in the great silence in which the Kingdoms live, in the great love that they have radiated since the beginning of this Creation?

I come to ask you, especially the Chileans, to become My missionaries of peace, not only on the path of prayer, but also in service, in the operative life of learning to take care of the Plan of God in this humanity and on this planet.

You have inner resources to do it. That is why I have called you here, to Viña del Mar, not only to speak to you about the oceans and about the critical situation that they face, but also to summon you to live the missionary life, from north to south of this country.

Chile, through the prayer of the heart, must also learn to sustain the tectonic plates. The balance of this country will depend on you, dear children, because this Earth, this planet, in its most intimate depth, also has wounds caused by the humanity of surface. This is why this planet moves as it has moved here in this country, because it is living its transition that needs to be lovingly accompanied, by all your prayer.

This is the same task that the world has.

While the oceans suffer, the being on surface also suffers. The human being faces its purification and sometimes does not find a way out.

I come to show you, as the Guiding Star of all the oceans, that it is possible to move forward, dear children, if you simply take My Hand, say "yes" to Me so that I can lead you to the final purpose.

Today, My Heart is also bereaved about Europe, for the division that the Iberian Peninsula is experiencing, without consciousness of what this means to the Creator.

I also invite you, dear children, to place all of Europe in your hearts and prayers so that it may be supported, supplied and guided by the Angels of the Nations.

The Angel of Peace, which corresponds to Portugal in these times, is having great tasks throughout the Iberian Peninsula and also throughout Europe.

I invite you to unite efforts of heart and soul, helping these great angels, responsible for the nations of the world, so that they can support the end of times with their mutual help.

I want to announce to you, dear children, by means of the Mercy of God, that I must, with your help, urgently, be in Europe to avoid something major that your brothers and sisters who are there, in Spain, do not imagine.

If humanity does not collaborate with the Plan of God, misfortunes will not be able to be avoided, because the human being, as part of this human race, has outraged all laws, all designs and all rules. And its debt is very great.

I invite you to live with Me the cross of this humanity, just as My Son lived it in an unconditional way for each one of you. He promised, He declared and announced that you would do greater things than He did. This is no longer a theory, nor a message, it is a reality that you are living by means of this Work, by means of this pilgrimage, in an inexplicable way in these times.

I come for all the human race and also for those who do not accept nor listen to Me. That is why I call you to unite to Me on this planetary mission, not only for the Kingdoms of Nature, but also for the nations, which, in case they do not maintain their spiritual and psychic balance, many things could not be avoided.

I will risk Myself in these times, dear children, to send less of My pilgrims, so that this Extraordinary Mission may become possible. This means, an even greater and invincible spirit of prayer on your part.

I will try to avoid something from Portugal, because there too, the love of My children concentrates in the great Sanctuary of Fatima, where I was with you a hundred years ago, to put an end to the war and establish a longer period of peace. But this period of peace, dear children, is ending.

I invite you to strengthen the path of prayer, because this will allow the doors of Heaven to remain open, so that the infinite Grace of My Heart may penetrate, as rays of Light, the nations that need it most, and thus I will be able to dissolve the evils of My enemy.

I invite you, dear children, to be conscious of the planetary situation, to come out of yourselves for a moment and not give work to God, but instead more service, more donation of self, more heart, so that many things may be relieved.

As you have placed your heart at the service of God in these days, I need this fire, ignited inside you, to continue forward, because I will be able to make of Chile, My Beloved Blessed Homeland.

This evening, I come to consecrate new Children of Mary with the same joy and plenitude, with the same happiness and bliss as Your Heavenly Mother did the last time in Santiago. Because here in this group of souls which will be consecrated today, there are origins of native people, spiritual and inner values that should emerge again in the human consciousness of this country, so that it may recuperate its spiritual dignity, its filiation with God and mainly, reconciliation among the peoples and the cultures of Chile.

This will also allow, dear children, that the very hard, difficult past, that this country experienced may be erased from the pain of the consciousnesses, and the principle of the primordial Healing of God can emerge.

That is why this consecration tonight is important for Me, because through the "yes" of these souls it is allowing many more souls of this nation to be helped, and in this way, through your hearts and your presence, you are allowing Me to return here once more, to consecrate all Chile to My Immaculate Heart.

Water to Bless.

The Children of Mary may approach, those who will live consecration today.

Dear children, I want to tell you that I Am also that Spirit of Peace, so sacred and mysterious, which was present among the Incas and the Mapuches by means of the symbol of the Condor Bird. It is in this way that I was never far from you, your souls were accompanied by Me, as all your native peoples.

And know, dear children, that despite what you have lived or what you have suffered throughout the times, you never lost your original purity.

This is what I come to look for in Chile in these moments, your original purity, which was cultivated in your souls at the beginning, in your essences, in your experiences of love as a sacred people.

Today I come to bring to you the same values conceived by the Incas and the Mapuches. Therefore, I wish to hear this evening, at least three times, the Hail Mary in Mapuche.

Hail Mary in Mapuche (three times)

I thank you for these prayers which I will take to the Celestial Father, so that many more indigenous essences, more native peoples throughout the Americas may receive My intercession, My Grace and especially the healing of their wounds.

By the authority that My Son has granted Me, as the Mother of the World and Mother of Humanity, on behalf of the oceans of the world, of all marine life, may the Lord consecrate this element so that it may serve as healing, as redemption and as forgiveness for hearts.

And now, dear children, through this consecration and this prayerful commitment that you assume with Me, I ask you to sing the hymn of your consecration so that My Graces can descend upon your hearts.

I thank you for responding to My call and today I leave you the sacred image of the Virgin of Carmen so that it may pilgrimage through your homes, hospitals, homes for the elderly, infant institutions, through all places that need love, healing and forgiveness.

Remember, always remember that I will be your Sea Star, that I will come from the firmament, from the Pacific Ocean to help you.

I thank you, dear children, for responding to My call.

I bless you, in the name of the Father, the Son and the Holy Spirit. Amen.
